STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

I, ALFRED DETTWYLER

(Name of Applicant)

of 4306 DETTWYLER SILVERTON

(Mailing Address)

(City)

State of ORE, 97381 Phone No. 8734738

(Zip Code)

do hereby make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 well

(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 10 inches and an estimated depth of 119 feet.

2. The well or other source is to be located 700 ft. N and 2150 ft. E

(N. or S.)

(E. or W.)

from the SW corner of Sec 6

(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SE 1/4 of the SW 1/4 of Sec. 6 Tp. 7 S R. 1 W, W. M., in the county of MARION

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
7	1 W	6	SE-SW	33.5
			SW-SE	16.3
				49.8

4. It is estimated that 119 feet of the well will require STEEL casing.

(Kind)

5. Depth to water table is estimated 20 Well drilled by RUDOLPH STADOWI

(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is ..... cubic feet per second or 275 gallons per minute.

7. The use to which the water is to be applied is MOSTLY ROW CROPS PASTURE & CHERRY TREES

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

#### DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

This is a 2.5 horsepower turbine pump with a capacity to run water which was tested at 275 gal per minute. I use mostly 5" main line for supply line. Also have 4" iff necessary

11. Construction work will begin on or before Complete

12. Construction work will be completed on or before Complete

13. The water will be completely applied to the proposed use on or before Sept 1-1979

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.

### Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.61 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 7, 1978

Actual construction work shall begin on or before April 11, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 11th day of April, 19 78

  
Water Resources Director
