

"CERTIFICATE NO. 57155"

Application No. G 8675

Permit No. G 7959

**RECEIVED**

*In supplement to Permit No. G 7209*

**STATE OF OREGON WATER RESOURCES DEPARTMENT**

JAN 27 1978

**WATER RESOURCES DEPT.  
SALEM, OREGON**

**Application for a Permit to Appropriate Ground Water**

MAR 9 1978

I, Lester R Curtis & Willard Curtis  
(Name of Applicant)

of P.O. Box 527 Sisters Ore  
(Mailing Address) (City)

State of Oregon, 97759 Phone No. 549-4791  
(Zip Code)

do hereby make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 well  
(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 6 inches and an estimated depth of 65 feet.

2. The well or other source is to be located 900 ft. S and 2150 ft. E  
(N. or S.) (E. or W.)

from the N.W. corner of Section 10 T. 15 S. R. 10 E. N. 11  
(Public Land Survey Corner)

Note this well about 50 ft south of a pond before described  
(If there is more than one well, each must be described)

in Permit G-7209 being within the NE  $\frac{1}{4}$  of the N.W.  $\frac{1}{4}$  of

Sec. 10 Tp. 15 S. R. 10 E., W. M., in the county of Deschutes

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
<u>15 S</u>	<u>10 E</u>	<u>10</u>	<u>NE of NW</u>	<u>8 Acres</u>

4. It is estimated that 65 feet of the well <sup>is</sup> will required iron casing.  
(Kind)

5. Depth to water table is estimated 20 Well drilled by Crawford Drilling  
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is ..... 2.1 ..... cubic feet per second or ..... 43 ..... gallons per minute.

7. The use to which the water is to be applied is ..... irrigation .....

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

..... about 600 ft south of Squaw Creek .....

10.

#### DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

..... 3 hp submersible pump in 4 ft of water in casing, jumping through into 3 inch 30 ft section of pipe into sump, when sump pond is lowered to inadequate level to shut off when pond has reached adequate working level. ....

11. Construction work will begin on or before ..... finished NOV. 77 .....

12. Construction work will be completed on or before ..... " " .....

13. The water will be completely applied to the proposed use on or before ..... June 15th .....

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. This well is supplemental to and improve the pond or sump of which I already have a permit No. G 7209

Application No. G 8675

Permit No. G 7959

C 5020

Remarks: I drilled this well near my sump pond  
so I can keep it at a working level. Although  
I have a permit for water rights on the sump  
pond NO. G 7209 my <sup>ground</sup> ~~underwater~~ water source was  
tapped and drained by a shallow well west of me last summer  
and I had no water and had to purchase it.  
I hope this permit and the cost of drilling  
isn't a waste of money.

Leslie R. Curtis

### Permit to Appropriate the Public Waters of the State of Oregon

C 3020

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.10 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.

The use to which this water is to be applied is supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; and shall be further limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

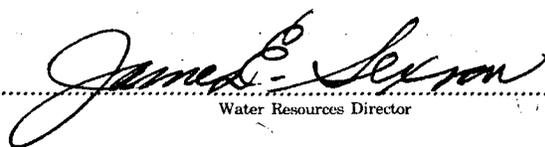

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 3, 1978

Actual construction work shall begin on or before April 11, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 11th day of April, 1978

  
Water Resources Director
