

Application No. G-8592

G 8042
Permit No.....

RECEIVED STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

WATER RESOURCES DEPT

020-3333-0000

City of Umatilla

(Name of Applicant)

of..... P. O. Box 130
(Mailing Address)

Umatilla.

(City)

State of..... Oregon....., 97882..... *Phone No.*..... do hereby
(Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of two wells.....

(Give number of wells, tile lines, infiltration galleries, etc.)

*having a diameter of 20-inches and an estimated depth of 10.00 feet.
(see attached)*

2. The well or other source is to be located ft. and ft.

(N. or S.)

from the corner of (Public Land Survey Corner)

(Public Land Survey Corner)

(If there is more than one well, each must be described)

Sec. Tr. R. W. M., in the county of

- 3. Location of area to be irrigated, or place of use if use other than irrigation. (see attached)*

4. It is estimated that 500 feet of the well will require steel casing.

(Kind)

- 5. Depth to water table is estimated** **250** Well drilled by.....
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 8,000.. gallons per minute. (4,000 gallons per minute per well.)

7. The use to which the water is to be applied is.....municipal consumption.....

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

N/A

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

N/A

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Both wells will utilize deep well vertical turbine

type pumps capable of pumping approximately 4000 GPM.

The actual sizing of the pump equipment is to be

determined from well pumping test information. The

water will be conducted to the City's distribution

system via 16-inch diameter water pipe.

11. Construction work will begin on or before.....February 1978

12. Construction work will be completed on or before.....June 1979

13. The water will be completely applied to the proposed use on or before.....June 1979

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.....City of Umatilla G-2560

Application No. G-8592

Permit No.

G 8042

Application No.....G-8592.....

Permit No.....G 8042.....

Permit to Appropriate the Public Waters of the State of Oregon

(1976)

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 17.8 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Intertie..... well and Golf Course well; being 8.9 c.f.s., from each well.....

The use to which this water is to be applied is municipal.....

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year; If the wells are determined to be hydraulically connected to the basalt aquifers within the Butter Creek Critical Groundwater Area, appropriation of water from the wells may be restricted or completely controlled by order of the Water Resources

Director,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

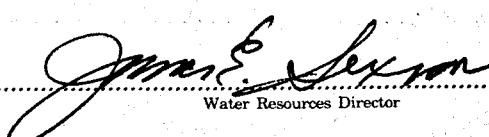

The priority date of this permit is December 28, 1977.....

Actual construction work shall begin on or before May 11, 1979 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19.... 79
Extended to Oct. 1, 1984 Extended to October 1, 1989 Extended to 10-1-94 , 10-1-99

Complete application of the water to the proposed use shall be made on or before October 1, 19.... 80
Extended to Oct. 1, 1984 Extended to October 1, 1989 Extended to 10-1-94 , 10-1-99

WITNESS my hand this 11th day of May , 19.... 78.....

James E. Saxon
Water Resources Director
