

Application No. G-8597

Permit No. G 8115

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

RECEIVED

JUN 5 1978

I, Raymond Bevans
(Name of Applicant)

WATER RESOURCES DEPT.
SALEM, OREGON

of Oregon side of State Line, Lowden
(Mailing Address) (City)

State of Washington, 99342 Phone No. 558-3735 do hereby
(Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well
(Give number of wells, tile lines, infiltration galleries, etc.)
having a diameter of 8 in. and an estimated depth of (258) ^{feet} Cased to 158 feet R.
Well depth 276'

2. The well or other source is to be located 220 ft. S. and 340 ft. W.
(N. or S.) (E. or W.)
from the NE corner of Section 17 a fractional
Section
(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SE 1/4 1/4 of the NE 1/4 of
Sec. 17 Tp. 6N R. 34E, W. M., in the county of Umatilla

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
<u>6N</u>	<u>34E</u>	<u>17</u>	<u>SE NE</u>	<u>88</u>
			<u>NE SE</u>	<u>86</u>
				<u>174</u>
<u>According to my Deed I reserved 17 41/100 acres Water right.</u>				

4. It is estimated that 158 feet of the well will require Steel casing.
(Kind)

5. Depth to water table is estimated 20 Well drilled by American Development & Drilling Co. Spokane Wash.
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or ... 200 gallons per minute.

7. The use to which the water is to be applied is Supplemental Irrigation of 17² acres

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Water to be pumped from well and placed into existing gravity flood system.

11. Construction work will begin on or before complete

12. Construction work will be completed on or before complete

13. The water will be completely applied to the proposed use on or before Oct, 1978

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. Cute 5526 & 14551

Application No. G-8597

Permit No. G 8115

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.22 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.

The use to which this water is to be applied is supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is January 3, 1978

Actual construction work shall begin on or before June 22, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 22nd day of June, 1978

James E. Stinson
Water Resources Director
