Permit No. G-8118

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Robert C. Utley (Name of applicant)

of 120 No. E. St. Lakeview, county of Lake

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Hammersley Creek (Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 20 gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located 45 ft. S and ft. from the NE corner of Lot 30 in Goldmoor Terrace a legal subdivision, located in (Section or subdivision)

S. 80° 02' E 2230 ft. from NE Cor. Sec. 4 T39S R20E WM (If preferable, give distance and bearing to section corner) (17-8-70)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NE 1/4 of Sec. 4, Twp. 39, R. 20 W. M., in the county of Lake

5. The pipe line (Canal or pipe line) to be 1320 feet in length, terminating in the SW 1/4 of Sec. 33, Twp. 39, R. 20, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is unnamed

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well (Give number of wells, tunnels, etc.) having a diameter of 6 inches and an estimated depth of 100 feet. It is estimated that 72 feet of the well will require welded 2.250 casing. Depth to water table is estimated static level 1 foot below land surface (Kind) (Feet)

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19 _____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 1,700
- 15. Construction work will begin on or before well was drilled 12/5/69 and 12/10/69
- 16. Construction work will be completed on or before completed
- 17. The water will be completely applied to the proposed use on or before immediately
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Robert C. Hlbert
(Signature of applicant)

Remarks: 26,000 sq. ft. of property is presently under greenhouses.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction and completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before August 26th, 19 70.

WITNESS my hand this 25th day of June, 19 70

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.05 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Utley Well.

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 15, 1970

Actual construction work shall begin on or before June 22, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 22nd day of June 1978
