

CERTIFICATE NO. 50755

RECEIVED

APR 4 1978

WATER RESOURCES DEPT. SALEM, OREGON

Permit No. G-8120

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Robert A. Baesler for View Point Ranches (Name of applicant)

of P. O. Box 240, Christmas Valley, (Postoffice Address) county of Lake

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated tributary of Fort Rock Basin (Name of stream)

2. The amount of water which the applicant intends to apply to beneficial use is 0.55 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 2650 ft. N. and 2110 ft. E. from the SW corner of Section 29, T 27 S, R 19 E (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE1 NW1 of Sec. 29, Twp. 27 S., R. 19 E., W. M., in the county of Lake

5. The (Canal or pipe line) to be miles in length, terminating in the (Smallest legal subdivision) of Sec. , Twp. , R. , W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is View Point Well No. 3 under permit No 696 and permit no 697; 1977 addition. DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of (Give number of wells, tunnels, etc.) having a diameter of inches and an estimated depth of feet. It is estimated that feet of the well will require (Kind) casing. Depth to water table is estimated (Feet)

8120

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 5 stage VHS

Give horsepower and type of motor or engine to be used 150 hp turbine

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
27S	19E	30	SE1/4E1	20.5 acres
		30	NE1/4E1	23.5 acres
				43.7

(If more space required, attach separate sheet)

Character of soil sandy loam
 Kind of crops raised alfalfa and pasture

RECEIVED
 DIVISION OF AGRICULTURE
 OREGON

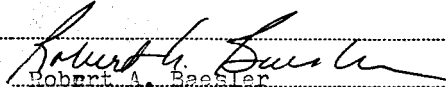

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$..... 30,000
- 15. Construction work will begin on or before June 1977
- 16. Construction work will be completed on or before June 1977
- 17. The water will be completely applied to the proposed use on or before June 1977.

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. No G 696 and G 697

Robert A. Baesler
(Signature of applicant)

Remarks: Prior to 1977, SW1, SW1, NW1NW1 and portions of the SE1NW1 and NE1SW1 were irrigated by wheel lines. In 1977, View Point replaced the existing wheel lines with a 1/4 mile center pivot with the pivot point located 272 feet east of the SW corner of the NW1, Section 29, T27S, R19E. The total additional acres that are being irrigated with the new system is 50 acres.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19.....

WITNESS my hand this _____ day of _____, 19.....

STATE OF OREGON, }
County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.55 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from View Point Well #3.

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 4, 1978

Actual construction work shall begin on or before June 22, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980.

WITNESS my hand this 22nd day of June, 1978.

James E. Selman
Water Resources Director
