PERMIT

County of Marion, }

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.81 cubic feet per second measured at the point of diversion from the well

or source of appropriation, or its equivalent in case of rotation with other water users, from 4 wells, being 0.20 c.f.s. from Well #1, 0.12 c.f.s. from Well #2, 0.30 c.f.s. from Well #3, and 0.19 c.f.s. from Well #4.

The use to which this water is to be applied is Fish Culture from Well #4 and irrigation from all wells; the use allowed herein may be made anytime between October 1 and April 30 when water can be put to beneficial use by irrigation for immediate crop growth.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2

acre feet per acre for each acre irrigated during the irrigation season of ~~each year~~ period from May 1 to September 30, and shall be further limited to a diversion of not to exceed 1 acre foot per acre for each acre irrigated during the period from October 1 to April 30, provided further that the right allowed herein shall not exceed 2 1/2 acre feet for each acre irrigated in any one year. The use of water during the period from October 1 to March 31 as authorized herein shall not establish priority of right as against future appropriations of ground water for beneficial uses other than similar rights for irrigation from October 1 to March 31. Provided further, the permittee shall record and submit annually a report of all water used for irrigation during the period of October 1 through April 30 of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 10, 1977

Actual construction work shall begin on or before July 25, 1979 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980
Extended to Oct. 1 1981

WITNESS my hand this 25th day of July, 1978.
