STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

JUN 26 1978

Water
WATER RESOURCES DEPT.
SALEM, OREGON

I, Bruce W. Sexton,

.....
(Name of Applicant)

of R.R. 4, Box 168-A
(Mailing Address)

The Dolls.

.....
(Situs)

(Mailing Address) _____ (City) _____
State of Oregon....., 97058 Phone No....298-5064..... do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of One well

(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 3 ft. and an estimated depth of 2.5 feet.

2. The well or other source is to be located 500 ft. South and 165 ft. East

(E, m, W)

(N. or S.)
from the N.W. corner of Sec. 30 Sec. 25 Sec. 36, Sec. 31

(Public Land Survey System)

¹⁶ See also the discussion of the "new" in the introduction.

(If there is more than one well, each must be described) being within the N.W. $\frac{1}{4}$ of the N.W. $\frac{1}{4}$ of
Sec. 31 Tp. 2 North R. 13 east of W.M. in the county of Wasco

3. Location of area to be irrigated, or place of use if use other than irrigation.

4. It is estimated that feet of the well will require casing.

(75-1)

5. Depth to water table is estimated 25' Well drilled by Ram

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet
per second or 53^{Max.} gallons per minute.

7. The use to which the water is to be applied is Hay fields, grain, orchard,
and truck garden (Irrigation)

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

40 feet away 10 feet difference

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

buried 1900ft of inch pipe from the centrifugal pump
1 hp motor - pumping water to outlets spaced
100ft apart after first 100ft from pump with
use flexible 1" hoses and use quick disconnect
System above ground to move Rainbird type sprinklers
around land

11. Construction work will begin on or before May 6, 1978

12. Construction work will be completed on or before May 5, 1979

13. The water will be completely applied to the proposed use on or before May 5, 1979

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 53 gpm ~~and shall not exceed 53 cubic feet per second~~ measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

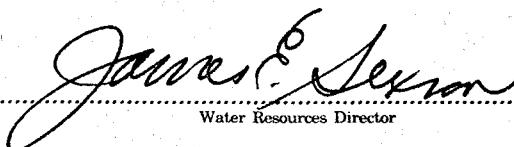

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 26, 1978

Actual construction work shall begin on or before September 18, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 18th day of September , 1978

James E. Saxon
Water Resources Director
