Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1700 gallons per minute ~~82000 gpm per second~~ measured at the point of diversion from the

well or source of appropriation, or its equivalent in case of rotation with other water users, from Wells #4 and #5, being 1200 gpm from Well #4, and 500 gpm from Well #5. The use to which this water is to be applied is use in a food processing plant, irrigation, and supplemental irrigation, providing that the primary source of water for irrigation shall be from waste water from food processing, and direct appropriation from the wells for periods and in quantities required to make up any deficiency in the available supply from waste water providing the total quantity appropriated for all uses shall not exceed 1700 gpm.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 22, 1978

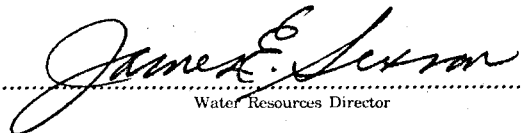

Actual construction work shall begin on or before October 13, 1979 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Extended to Oct. 1 1981

Complete application of the water to the proposed use shall be made on or before October 1, 1981

WITNESS my hand this 13th day of October, 1978
