

"CERTIFICATE NO. 62453"

Application No. G-8929

Permit No. G 8337

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

RECEIVED
AUG 15 1978
WATER RESOURCES DEPT.
SALEM, OREGON

I, Louder H. Lockhart

(Name of Applicant)

of 108 Wildwood Ln

(Mailing Address)

Coos Bay

(City)

State of Oregon

97420

(Zip Code)

Phone No. 267-4903

do hereby make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of ONE Well

(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 6.0" and an estimated depth of 155 feet.

2. The well or other source is to be located 1520 ft. N and 700 ft. E

(N. or S.)

(E. or W.)

from the SW corner of Sec 29

(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 29 Tp. 25S R. 12W, W. M., in the county of Coos

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
25S	12W	29	NW $\frac{1}{4}$ SW $\frac{1}{4}$	0.4Ac irrigation
" "	" "	" "	SW $\frac{1}{4}$ SW $\frac{1}{4}$	0.4Ac " "

4. It is estimated that feet of the well will require 96' of 6" steel casing.

(Kind)

5. Depth to water table is estimated 82 Well drilled by Tom Barrington

(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is 0.005 cubic feet per second or gallons per minute.

7. The use to which the water is to be applied is IRRIGATION

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

N/A

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

N/A

10. **DESCRIPTION OF WORKS**

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

1/2 Hp submersible pump used from well to pressure tank, water then goes from pressure tank to house, thence by portable garden hose & sprinklers to lawn & garden

11. Construction work will begin on or before..... Complete

12. Construction work will be completed on or before..... " "

13. The water will be completely applied to the proposed use on or before..... IN Use

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right..... N/A

Application No. G-8929

Permit No. G 8337

Remarks: Located approx 40' feet south and 95' feet East of my well is a water well which is being used as a community water supply. As additional families are added onto the water system it is likely that there may be a groundwater interference problem between the two wells. —

Louden N. Lockhart

Signature of Applicant

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for..... correction and completion.....

In order to retain its priority, this application must be returned to the Water Resources Director with corrections on or before..... December 13....., 19..... 78.....

WITNESS my hand this 13th day of October, 1978

Application No. G-8929

Permit No. G 8337

Application No. G-8929

Permit No. G 8337

Permit to appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.005 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from one well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

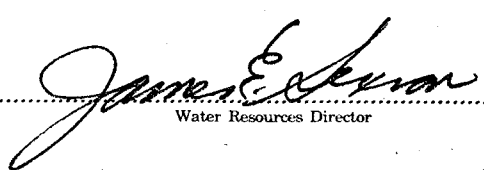

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 15, 1978

Actual construction work shall begin on or before November 7, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Complete application of the water to the proposed use shall be made on or before October 1, 1981

WITNESS my hand this 7th day of November, 1978

Water Resources Director
