Permit No. G-8350
97773
APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Byron Hadley LaFollette
(Name of applicant)
of 11382 Westland Rd N, county of Marion
(Postoffice Address)
state of Ore., OR 97303, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

N.O.

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Mission Lake, Willamette River
(Name of stream)
tributary of _____

2. The amount of water which the applicant intends to apply to beneficial use is 2.63 cubic feet per second or _____ gallons per minute. well #1 - 88 cfs

3. The use to which the water is to be applied is for water for irrigation out of the season.

4. The well or other source is located #1 480' S 400' E and _____ ft. _____ from the NW corner
corner of #1 Sec 34 T6S R3W and _____ ft. _____ from the _____
#2 Sec 2 T6S R3W (N. or S.) (E. or W.)
(Section or subdivision)

Well #1 40' N. & 1290' W. from SE Cor. Sec 34 T5S R3W
(If preferable, give distance and bearing to section corner)
Well #2 780' S. & 640' E from NW Cor Sec 2 T6S R3W
(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the #2 NW NW of Sec. 2, Twp. 6S, R. R-3W

W. M., in the county of Marion

5. The port main line (Canal or pipe line) to be _____ miles in length, terminating in the _____ of Sec. _____, Twp. _____, R. _____, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is _____

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of two wells (Give number of wells, tunnels, etc.) having a diameter of 10" & 10" inches and an estimated depth of 106 + 60 feet. It is estimated that 100' feet of the well will require Steel (Kind) casing. Depth to water table is estimated 24' (Feet)

G 8320

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe; ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 50hp Turbine

204p Centrifugal

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

#1 1250ft from main lake 40' El. Change
#2

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
<u>Well #1</u>				
<u>5S</u>	<u>3W</u>	<u>34</u>	<u>SE SW</u>	<u>1.4</u>
			<u>NE SE</u>	<u>0.6</u>
			<u>SW SE</u>	<u>32.4</u>

MUNICIPAL SUPPLY—

G 7773
G 8350

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ _____

15. Construction work will begin on or before _____ *Completed*

16. Construction work will be completed on or before _____ *11*

17. The water will be completely applied to the proposed use on or before _____ *11*

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. *app. # 49007 Pair*

app. # G 5416 + 5417

Byron H. LaFollett
(Signature of applicant)

Remarks:

I have just planted and watered my ^{mint} ~~mint~~, and it is in desprit need for a shot of water now. These roots have been interrupted and need water to get seal up the soil. In order for me to keep up a good rotation of cropping I annually plant mint and need this permit each year. In addition I plant dill in the spring and need water before the season to emerge my crop.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____ completion _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____ November 21, _____, 19 78.

WITNESS my hand this _____ 21st _____ day of _____ September, _____, 19 78.

WATER RESOURCES DEPT.
SALEM, OREGON

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.55 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from two wells; being 1.8 c.f.s. from well #1, and 0.75 c.f.s. from well #2.

The use to which this water is to be applied is supplemental irrigation. The use allowed herein may be made anytime between October 1 and March 31 that water can be put to beneficial use by irrigation for immediate crop growth.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 1 acre feet per acre for each acre irrigated during the irrigation season of each year, period from October 1 to March 31, provided further that the right allowed herein, together with the amount secured under any other right existing for the same land shall not exceed 2 1/2 acre feet for each acre irrigated in any one year. The use of water during the period from October 1 to March 31 as authorized herein shall not establish priority of right as against future appropriations of ground water for beneficial uses other than similar rights for irrigation from October 1 to March 31. Provided further, the permittee shall record and submit annually a report of all water used for irrigation during the period of October 1 through March 31 of each year.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 18, 1977

Actual construction work shall begin on or before December 6, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Complete application of the water to the proposed use shall be made on or before October 1, 1981

WITNESS my hand this 6th day of December, 1978.

James E. Seaman Water Resources Director
