

Application No. G-8955

Permit No. G 8358

**RECEIVED** STATE OF OREGON WATER RESOURCES DEPARTMENT

OCT 3 1978 Application for a Permit to Appropriate Ground Water 100.90

WATER RESOURCES DEPT.  
SALEM, OREGON

Becker Ranch, Inc.  
(Name of Applicant)

of Box 776 Vak  
(Mailing Address) (City)

State of Oregon, 97918 Phone No. 423-3141 do hereby  
(Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 well  
(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 16" - 12" and an estimated depth of 612 feet.

2. The well or other source is to be located 1965 ft. N and 792 ft. E  
(N. or S.) (E. or W.)

from the SE corner of Sec. 8 T18S R40 E W.M.  
(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the NW  $\frac{1}{4}$  of the SW  $\frac{1}{4}$  of

Sec. 9 Tp. 18S R. 40 E, W. M., in the county of Malheur

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated

PRIME  
85 $\frac{3}{4}$  ac.

Supplemental

212 $\frac{3}{4}$  ac.

297 $\frac{3}{4}$  ac.

4. It is estimated that 360-16" 140' 12" feet of the well will require steel casing.  
(Kind)

5. Depth to water table is estimated 400 Well drilled by Holdaway  
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is ..... cubic feet per second or 6.50 gallons per minute.

7. The use to which the water is to be applied is ..... Irrigation of 85<sup>±</sup> ac  
& Suppl Irrigation of 2125 ac.

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

220' to S-F Indian Creek Diff Elev - 14'

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Water pumped into existing ditch for  
supplemental irrig. East  
Pumped back up to existing portable  
6" main line to carry water to portable  
sprinklers and wheel lines to areas west  
of pump.  
Prime acreage Sec 17 and 18 will be  
irrigated while haying is in progress on  
areas irrigated from Reservoir. Booster  
pump to be installed to supplement  
Reservoir acreage.

11. Construction work will begin on or before.....

12. Construction work will be completed on or before.....

13. The water will be completely applied to the proposed use on or before..... Completed

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.....

Remarks:..... static level well is 10'.....

Bowl set at 580'

Pump is a Worthington

Motor - Dutz Diesel V10 220 H.P.

Applicant intends to drill well deeper to try to increase flow to 1500+ G.P.M.

Existing Motor and Pump designed for 1500 G.P.M. - Anticipated flow.

Signature of Applicant

### Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.45 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.

The use to which this water is to be applied is irrigation and supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 3, 1978

Actual construction work shall begin on or before December 6, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Complete application of the water to the proposed use shall be made on or before October 1, 1981

WITNESS my hand this 6th day of December, 1978

*James E. Severson*  
Water Resources Director
