CERTIFICATE NO. 52825

Application No. G-9062

Permit No. G 8446

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

J. Jack Zabransky and Son

.....
(Name of Applicant)

of Route 1, Box 76 Stanfield

State of Oregon..... 97875..... Phone No. 449-3317..... do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well

(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 16 inches and an estimated depth of 1200 feet.

2. The well or other source is to be located ... 2500 ft. S. and 30 ft. W.
(N. or S.) (E. or W.)

from the NE corner of Section 25.....
(Public Land Survey Corner)

(If there is more than one well, each must be described)

..... being within the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of

Sec 25 *Twp* 4N *R* 29E *W. M.* in the county of Umatilla

3. Location of area to be irrigated, or place of use if use other than irrigation.

4. It is estimated that ...100..... feet of the well will requireSteel..... casing.
(Kind)

5. Depth to water table is estimated 200 Well drilled by Larry Burd.....
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is 15.77 cubic feet per second or 7100 gallons per minute.

7. The use to which the water is to be applied is Supplemental Irrigation to make up a deficiency of 3 wells filed under permit G-8209

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

..... N/A

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

..... N/A

10. **DESCRIPTION OF WORKS**

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

..... A 400 Hp Electric pump on this well will be tied into the following system described in permit G-8209.

Underground pipelines in dimensions of 14", 12" and 10" to circle pivot irrigation machines. Wheel lines and hand lines together with three 130 acre circle pivot machines, one 170 acre circle pivot machine, two 60 acre circle pivot machines, one 30 acre circle pivot machine, one $\frac{1}{4}$ mile wheel line, two $\frac{1}{4}$ mile 3" hand lines.

11. Construction work will begin on or before Started

12. Construction work will be completed on or before October 1, 1979

13. The water will be completely applied to the proposed use on or before October 1, 1980

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. Stanfield Irrigation District Permit 30789 and Permit 8209

Application No.

G-9062

Permit No.

G 8446

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 11.6 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from one well.

The use to which this water is to be applied is.....irrigation and supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is December 26, 1978

Actual construction work shall begin on or before March 2, 1980 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980.

Complete application of the water to the proposed use shall be made on or before October 1, 1981.

WITNESS my hand this ... 2nd day of March , 1979.

James E. Lyon
Water Resources Director
