

Application No. G-9068

Permit No. G 8491

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

RECEIVED

DEC 28 1978

WATER RESOURCES DEPT.
SALEM, OREGON

I, Richard T. Mosman (Name of Applicant)
of 5999 Culver Dr SE, Salem (Mailing Address) (City)

State of Oregon, 97301 (Zip Code) Phone No. 503-581-2628 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well (Give number of wells, tile lines, infiltration galleries, etc.)
having a diameter of 8 1/2 and an estimated depth of 109 feet.

2. The well or other source is to be located 265 ft. S. and 860 ft. E. (N. or S.) (E. or W.)
from the N 1/4 NE corner of Z. Pollard DLC 42 (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SW 1/4 of the NE 1/4 of
Sec. 20 Tp. 7S R. 2W, W. M., in the county of Marion

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
20				
7S	2W	20	SW 1/4 NE 1/4	9 acres, to irrigate 2.3 acres
			NW 1/4 SE 1/4	6.7 acres
				9.0 acres

RTM
12 months
1979

4. It is estimated that 109 feet of the well will require 5. steel casing. (Kind)

5. Depth to water table is estimated 50 (Feet) Well drilled by Mike Waldroop

of Miller & West
5875 Gass in Rd SE
363-4191

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 130 gallons per minute.

7. The use to which the water is to be applied is irrigation of blueberries

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

the well will be used to supply water to buried sprinkler lines. a 3" main line approx 550 feet long (275 each way from the well) will supply sprinkler lines 600 ft long plus some shorter lines in one corner a 10 hp pump will be installed ~~to~~ this will be a 3 phase motor

11. Construction work will begin on or before Jan 1, 1979

12. Construction work will be completed on or before Oct 1, 1980

13. The water will be completely applied to the proposed use on or before Oct 1, 1981

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.

Application No. G-9068

Permit No. G 8491

Remarks: *This system will be completed over four years its complete in the entire field. The first 1/4 will be used this year (Summer 1979).*

Legal Description is Lot No. 2 Capital City Grand Haven plm

Application No. G-9068

Permit No. G 8491

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.11 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is December 28, 1978

Actual construction work shall begin on or before April 24, 1980 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Complete application of the water to the proposed use shall be made on or before October 1, 1981

WITNESS my hand this 24th day of April, 1979
