STATE OF OREGON WATER RESOURCES DEPARTMENT
Application for a Permit to Appropriate Ground Water
WATER RESOURCES DEPT.
SALEM, OREGON

I, David B. & Florence F. Carter
(Name of Applicant)

of 4565 Hazel Green Road NE, Salem
(Mailing Address) (City)

State of Oregon, 97303 Phone No. 393 3649
(Zip Code) do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well
(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 8 inch and an estimated depth of 125' (more or less)

2. The well or other source is to be located 1300 ft. North and 450 ft. East
(N. or S.) (E. or W.)

from the common corner of Sections 28, 27, 34, 33
(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of
Sec. 27 Tp. 6 South R. 2 West, W. M., in the county of Marion

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
T6S	R2W	27	SW $\frac{1}{4}$ - SW $\frac{1}{4}$	26.5
T6S	R2W	27	SE $\frac{1}{4}$ - SW $\frac{1}{4}$	7.5
				<u>34.0</u>

4. It is estimated that all feet of the well will require metal casing.
(Kind)

5. Depth to water table is estimated 30' Well drilled by Commerical driller
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is 0.4 cubic feet per second or 180 gallons per minute.

7. The use to which the water is to be applied is irrigate cropland and pasture

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

valved to control artesian flow

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

One well and electric pump of sufficient size to irrigate the described property using conventional irrigation pipe and sprinkler heads. The actual size of the pump and motor has not been determined but will be of sufficient size to adequately distribute the water applied for.

11. Construction work will begin on or before October 1, 1979

12. Construction work will be completed on or before October 1, 1980

13. The water will be completely applied to the proposed use on or before July 30, 1981

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. Not applicable although this property may have had water rights from the Little Pudding River

Application No. *G-9157*

Permit No. *G 8494*

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.4 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 2, 1979

Actual construction work shall begin on or before April 24, 1980 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Complete application of the water to the proposed use shall be made on or before October 1, 1981

WITNESS my hand this 24th day of April, 1979

Water Resources Director
