(City)

State of..... Oregon....., 97537..... *Phone No.*..... 582-3357....., *do hereby*

make application for a permit to appropriate the following described ground waters of the State of Oregon:

make application for a permit to appropriate the following described ground waters of the State of Oregon...

1. The development will consist of Greenlaw Well

having a diameter of 6-inch (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of feet.

2. The well or other source is to be located 670 ft. N. and 670 ft. E.

from the S¹ Section 32 (N. or S.) (E. or W.)

from the corner of (Public Land Survey Corner)

.....

(If there is more than one well, each must be described)

..... being within the SW ¼ of the SE ¼ of the SW ¼.

Sec. 32 *Twp.* 34 *S.* *R.* 3 *W.* *W.M.* in the county of Jackson.

Sec., I.P., R., W. M., in the county of

3. Location of area to be irrigated, or place of use if use other than irrigation.

steel

4. It is estimated that 51 feet of the well will require 0.250 casing.

5. Depth to water table is estimated 38' ... Well drilled by...Crater Well Drilling, Inc.

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 60 gallons per minute.

7. The use to which the water is to be applied is Irrigation on
pasture or Hay

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

5 H.P. electric motor

2300 feet 3-inch pipeline...

Sprinkler system.

11. Construction work will begin on or before one year from date of priority.

12. Construction work will be completed on or before October 1, 1981.

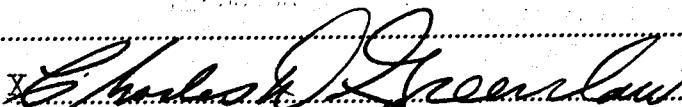

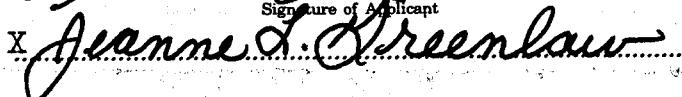

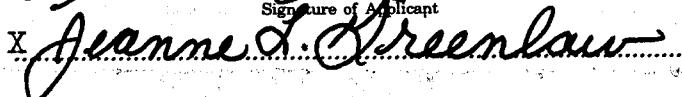

13. The water will be completely applied to the proposed use on or before October 1, 1982.

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. Supplemental to Application No. 49897, Permit No. 37550 and Application No. 53268, Permit No. 39529.

Application No. G-9148

Permit No. G-8552

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 60 gallons per minute measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.....

The use to which this water is to be applied is supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed $2\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 26, 1979

Actual construction work shall begin on or before May 30, 1980 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980.

Complete application of the water to the proposed use shall be made on or before October 1, 1981.

WITNESS my hand this 30th day of May, 1979

James E. Lewis
Water Resources Director
