

*Application No.* G-9442

Permit No. G-3683

STATE OF OREGON WATER RESOURCES DEPARTMENT

**Application for a Permit to Appropriate Ground Water** OCT 13 1979

1961.8.1979

**WATER RESOURCES DEPT  
SALEM, OREGON**

I, Robert K. Beesley SALEM, OREGON

*of.....* RT. 1, Box 238 *(Name of Applicant)* Culver

*State of* **Oregon** *(Mailing Address)* \_\_\_\_\_ *(City)* \_\_\_\_\_ *Phone No.* **546-3782** ..... *do hereby*

*make application for a permit to appropriate the following described ground waters of the State of Oregon:*

**Existing well No. 9**

(Give number of walls, tile lines, infiltration galleries, etc.)

*having a diameter of ....., and an estimated depth of ....., feet.*

2. The well or other source is to be located 20 ft. S. and 980 ft. E.

(N. or S.) (E. or W.)

from the NW corner of SW 1/4 SW  
(Public Land Survey Corner)

(Public Land Survey Corner)

(If there is more than one well, each must be described)

...being within the ..... SW .....  $\frac{1}{4}$  of the ..... NW .....  $\frac{1}{4}$  of

Sec. 17 Tp. 14S R. 12E, W. M., in the county of Deschutes

*3. Location of area to be irrigated, or place of use if use other than irrigation.*

4. It is estimated that ..... 20 ..... feet of the well will require 250 steel gage ..... casing.

5. Depth to water table is estimated ..... 150 ..... Well drilled by Double R and C Ranch

6. The amount of water which the applicant intends to apply to beneficial use is ..... 1.33 ..... cubic feet per second or ..... 599 ..... gallons per minute.

7. The use to which the water is to be applied is ..... Supplemental irrigation

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

..... N/A .....

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

..... N/A .....

10.

#### DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Well has 125 HP line shaft turbine pump. Water is to be supplied to Six (6) wheelines and 1 or handlines via approximately 1700 feet of buried 12 inch steel mainline and 2400 feet of 10 inch aluminum mainline.

11. Construction work will begin on or before ..... completed

12. Construction work will be completed on or before ..... completed

13. The water will be completely applied to the proposed use on or before ..... applied now

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. ..... Squaw Creek under C # 252 & 302

Application No.... G-9442

Permit No.... G 8683

Remarks: This project is complete and request certificate and permit  
for financing report as soon as possible.

Ready for final proof

Application No. G-9442

Permit No. G 8683

## Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed ..... 1.33 ..... cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from ..... Well No. 9.

The use to which this water is to be applied is ..... supplemental irrigation .....

If for irrigation, this appropriation shall be limited to ..... 1/80th ..... of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed ..... 3.0 ..... acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior existing right for the same land and shall not exceed the limitation allowed herein.....

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is ..... October 18, 1979 .....

Actual construction work shall begin on or before ..... December 21, 1980 ..... and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19...81.....

Complete application of the water to the proposed use shall be made on or before October 1, 19...82.....

WITNESS my hand this ..... 21st ..... day of ..... December ..... , 19...79.....

John E. Saxon  
Water Resources Director
