

Application No. E-9387

Permit No. G 8717

STATE OF OREGON WATER RESOURCES DEPARTMENT

**RECEIVE**  
AUG 29 1979  
WATER RESOURCES DEPARTMENT  
SALEM, OREGON

Application for a Permit to Appropriate Ground Water

I, WESTERN PULP PRODUCTS CO. (Name of Applicant)

of P. O. BOX 968 (Mailing Address) CORVALLIS (City)

State of OREGON, 97330 (Zip Code) Phone No. (503) 757-1151 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of two wells (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of (see below) and an estimated depth of (see below) feet.

2. The well or other source is to be located (see below) (N. or S.) and (see below) ft. (E. or W.)

from the NE corner of the Corvallis Airport Industrial Park (Public Land Survey Corner)

Well #1: 360 ft. S. & 560 ft. E. - Well #2: 200 ft. S. & 580 ft. E. both from the (If there is more than one well, each must be described)

SW corner of D.L.C. # 56 being within the NE 1/4 SE 1/4 of

Sec. 22 Tp. 12 S R. 5 W, W. M., in the county of Benton

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
12 S	5 W	22	SE 1/4 NE 1/4 & NE 1/4 SE 1/4 (Tax Lot 600)	Industrial Process Water
<b>WELL DATA INFORMATION:</b>				
Well No	Diam	Depth	Distance South West	Type Casing Drilled BY
1	8"	~ 50 ft.	1017 ft. 77 ft.	Steel ?
2	8" (10" top)	140 ft.	842 ft. 65 ft.	PVC Corvallis Drilling

4. It is estimated that (see above) feet of the well will require (see above) casing. (Kind)

5. Depth to water table is estimated 24 Well drilled by (see above) (static)

6. The amount of water which the applicant intends to apply to beneficial use is ..... cubic feet  
140 [(Sept 4, 1979) increase - well #2 to have first priority for 70 gpm]  
per second or ..... ~~70~~ ..... gallons per minute. being 70 gallons per minute from each well

7. The use to which the water is to be applied is ..... Industrial process water for molded pulp  
..... manufacturing .....

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply  
when not in use must be described.

..... n/a .....

9. If the location of the well, or other development work is less than one-fourth mile from a natural  
stream channel, give the distance to the channel and the difference in elevation between the stream bed and the  
ground surface at the source of development.

there is a shallow drainage ditch along the East side of SW Lowe Street .....

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation  
system to adequately describe the proposed distribution system.

Both wells are located within the main production building, and the process water  
is utilized within the same building. ....

5 H.P. motor with pump rated at 70 g.p.m. on Well #2 .....

7 1/2 H.P. motor on pump for Well #1 .....

Wells pump into a common in-system storage tank having  
a capacity of about 18,000 gallons. ....

11. Construction work will begin on or before ..... n/a (existing wells) .....

12. Construction work will be completed on or before ..... n/a .....

13. The water will be completely applied to the proposed use on or before ..... n/a (completed) .....

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing  
water right. n/a (It is understood there may be an existing permit on Well No. 1 dating  
back to the early 1950's) .....

Application No. G-9387 .....

Permit No. G 8717 .....

Remarks:.....The plant has been in operation since the late-1940's, and presently  
employs more than 80 area residents.....The plant utilizes waste paper to produce  
biodegradable plant containers. Well No. 1 was existing when we purchased the  
plant in 1958, and Well No. 2 was dug in May 1977. No problems have ever been  
incurred with the ground water obtained from either well.

P.M.

Application No. G-9387 Permit No. G 8717

### Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.3 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from two wells being 70 gallons of water per minute from each well

The use to which this water is to be applied is industrial

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 29, 1979 for well No. 2 and September 4, 1979 for well No. 1

Actual construction work shall begin on or before February 7, 1981 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1981

Complete application of the water to the proposed use shall be made on or before October 1, 1982

WITNESS my hand this 7th day of February, 1980

James E. Kern  
Water Resources Director

Handwritten initials and marks at the bottom right corner.
