

Application No. G-9384

Permit No. G 8765

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

RECEIVED  
NOV 20 1979  
WATER RESOURCES DEPT  
SALEM, OREGON

I, Ross Birrer (Name of Applicant)

of 626 Northwest 8th Pendleton (Mailing Address) (City)

State of Oregon 97801 Phone No. 276-8203 do hereby (Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of One Well (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 8" and an estimated depth of 290 feet.

2. The well or other source is to be located 1400 ft N and 1500 ft W (N. or S.) (E. or W.)

from the SE corner of Section 23 (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the NW 1/4 of the SE 1/4 of

Sec. 23 Tp. 2N R. 33E, W. M., in the county of Umatilla

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
2N	33E	23	NW 1/4 SE 1/4	18.0

4. It is estimated that 150 feet of the well will require Steel casing. (Kind)

5. Depth to water table is estimated 84 Well drilled by L. Horn (Feet)

6. The amount of water which the applicant intends to apply to beneficial use is ..... cubic feet per second or ..... 101 ..... gallons per minute.

7. The use to which the water is to be applied is ..... Supplemental Irrigation .....

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Water will be pumped with an 7.5 H.P. submersible pump. This pump will also supply water for domestic use in the my home.

I plan to apply the water with a wheel line. I plan to convey the water to the wheel line by an 3" buried PVC line.

At this date I have not decided to dirrectly irrigate from the well or to pump into the pond and relift the water to irrigate.

11. Construction work will begin on or before ..... Started .....

12. Construction work will be completed on or before ..... 10-1-80 .....

13. The water will be completely applied to the proposed use on or before ..... 10-1-81 .....

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. .... This well will be supplemental to a pond. This filing will accompany this well filing. ....

Application No. G-9384.....

Permit No. G 8765.....

Permit to appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.22 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from 1 well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 28, 1979

Actual construction work shall begin on or before February 25, 1981 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1981

Complete application of the water to the proposed use shall be made on or before October 1, 1982

WITNESS my hand this 25th day of February, 1980

James E. Seaton Water Resources Director
