

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, George Walters (Name of applicant)
of Route 1, Box 57, Hillsboro, county of Washington
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated McKay Creek
(Name of stream)

tributary of Dairy Creek

2. The amount of water which the applicant intends to apply to beneficial use is 0.05025 cubic feet per second or _____ gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located 1130.5 ft. N and 308.2 ft. W from the SE corner of Section 17, T1N, R2W, W.M., and bears N. 15° 15' W. 1171.8 feet therefrom,
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well each must be described. Use separate sheet if necessary)

being within the SE 1/4 of SE 1/4 of Sec. 17, Twp. 1 N, R. 2 W W. M. in the county of Washington

5. The _____ (Canal or pipe line) to be _____ miles in length, terminating in the _____ of Sec. _____, Twp. _____

(Smallest legal subdivision)

R. _____ W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is WELL No. 2

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development ~~will~~ consist of one well having a diameter of 6 inches and an ~~estimated~~ depth of 120 feet. ~~It is estimated that~~ has 120 feet of steel casing. Depth to water table is ~~estimated~~ 17 feet of the well ~~with~~ _____ (Kind)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 200 ft.; size at intake, 3 in.; in size at 100 ft. from intake 2 in.; size at place of use 2 in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 2 H. P. Electric

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N or S	Range E or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
1 N	2 W	17	SE ¹ of SE ¹	4.5

(If more space required, attach separate sheet)

Character of soil Willamette Valley Loam

Kind of crops raised Pasture and hay and grain

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

14. Estimated cost of proposed works, \$1650.....

15. Construction work will begin on or before) Well drilled in November and December,

16. Construction work will be completed on or before) 1956. See well report.

17. The water will be completely applied to the proposed use on or before October 1, 1958.

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Will be used with water from an older well nearby to irrigate a total of 9.1 acres. See Registration Statement for the older well and map attached hereto.

George Walters
(Signature of applicant)

Remarks: The attached map shows well (No. 1) drilled in 1944 for irrigation of 4.6 acres, and well (No. 2) drilled in 1956 for domestic use only. Well No. 1 has been reported on Registration Statement. This application covers an additional 4.5 acres to be irrigated from well No. 2.

STATE OF OREGON. }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19

WITNESS my hand this day of, 19

STATE ENGINEER

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.06 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 10, 1958

Actual construction work shall begin on or before June 20, 1959 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1959

Complete application of the water to the proposed use shall be made on or before October 1, 1960

WITNESS my hand this 20th day of June, 1958

Lewis A. Stanley STATE ENGINEER
