

ASSIGNED, See Misc. Rec., Vol. 6 Page 1436

Application No. G-9144

Permit No. G 8836

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

RECEIVED FEB 23 1979 WATER RESOURCES DEPT. SALEM, OREGON

I, Tom William Johnson (Name of Applicant) of 130 S. Tallewood, Prineville (City), Oregon 97754 (Mailing Address), Phone No. 447-3189 (Zip Code) do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

- 1. The development will consist of One well (Give number of wells, tile lines, infiltration galleries, etc.) having a diameter of 8" casing and an estimated depth of 150' feet. 2. The well or other source is to be located 900 ft S and 660 ft W from the NE corner of Sec 34 T 14S - R 17E W.M. (Public Land Survey Corner)

(If there is more than one well, each must be described) being within the NE 1/4 of the NE 1/4 of Sec. 34 Tp. 14S R. 17E, W.M., in the county of Crook

3. Location of area to be irrigated, or place of use if use other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Handwritten entries include Township 14S, Range 17E, Section 34, and irrigation areas of 4.9 and 1.0 acres.

- 4. It is estimated that 106 feet of the well will require 20 casing. (Kind) 5. Depth to water table is estimated 30 (Feet) Well drilled by A.K.I.N.S.

6. The amount of water which the applicant intends to apply to beneficial use is 2 feet per second or 89.696 gallons per minute.

7. The use to which the water is to be applied is IRRIGATION

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

OCHOCO RES 2.50' SOUTH @ HIGH WATER ELEV. DIFF APPROX 10'

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Length of under ground main line is 800+ feet. The pump is a sub megerable Beekley. The irrigation type is lateral pipes with sprinkling heads (11) heads. The pump and motor is 5 HP. The size of pump and motor is 5 HP Beekley

11. Construction work will begin on or before Now (it's done)

12. Construction work will be completed on or before Now (it's done) it was completed in the 60

13. The water will be completely applied to the proposed use on or before Nov 20, 1978 and before.

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.

Application No. G-9144

Permit No. G 8836

G 2800

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.08 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be further limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

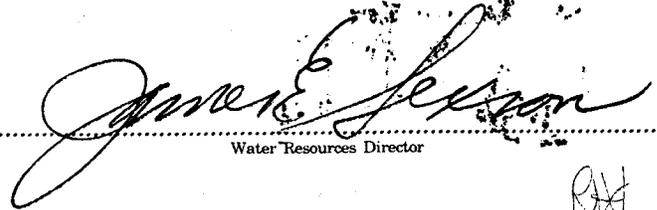

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 23, 1979

Actual construction work shall begin on or before May 21, 1981 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1981

Complete application of the water to the proposed use shall be made on or before October 1, 1982

WITNESS my hand this 21st day of May, 1980

Water Resources Director
