

Application No. G-9300

Permit No. G 8855

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

RECEIVED
JUL 2 1979
WATER RESOURCES DEPT
SALEM, OREGON

I, Otto G. Pikel
(Name of Applicant)

of 8024 Olney St. SE Salem, Oregon 97301
(Mailing Address) (City)

State of Oregon, 97301 Phone No. 749-2930 do hereby
(Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well
(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 6 inch and an estimated depth of 155 feet.

2. The well or other source is to be located 1850 ft. N and 150 ft. E
(N. or S.) (E. or W.)

from the 1/4 corner of Sec. 26
(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the NW 1/4 of the NE 1/4 of
Sec. 26 Tp. 8S R. 2W, W. M., in the county of Marion

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
8S	2W	26	NW NE	7 acres
8S	2W	26	SW NE	17 acres
				2A

4. It is estimated that 155 feet of the well will require 6 1/2 ft., 250 casing.
(Kind)

5. Depth to water table is estimated 145 Well drilled by Long Drilling
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet
per second or ~~60~~ ⁶⁰ gallons per minute.

7. The use to which the water is to be applied is irrigation of 25 acres

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.
well approximately 550 ftt from Beaver Creek and approximately 50 ft. higher elevation than stream bed.

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

The system has not been developed as yet. Estimate 1 1/2 to 2 1/2 hp motor and adequate piping to provide irrigation network. The well has been drilled and in use using a shallow well pump however the system is not adequate and a larger submersible pump will be installed.

11. Construction work will begin on or before June 14, 1978

12. Construction work will be completed on or before July 1, 1980

13. The water will be completely applied to the proposed use on or before July 1, 1980

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. I am paying for water rights to Beaver Creek however others have prior water rights and there is hardly any water in the creek when needed for irrigation or other purposes.

Application No. G-9300

Permit No. G 8855

Remarks: WATER FROM BEAVER CREEK CANNOT AND WILL NOT BE USED FOR IRRIGATION PURPOSES

Permit No. G. 8855

[Small stamp]

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 60 gallons per minute ~~cubic feet per second~~ measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from one well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

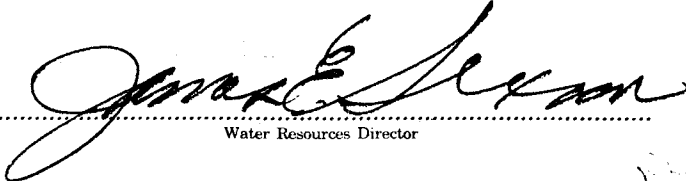

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.
The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.
The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.
The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 2, 1979

Actual construction work shall begin on or before July 14, 1981 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1981

Complete application of the water to the proposed use shall be made on or before October 1, 1982
Extended to Oct. 1, 1984

WITNESS my hand this 14th day of July, 1980

Water Resources Director
