

Permit No. G- 890

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, DUCKWALL BROS., INC.

(Name of applicant)

of P. O. Box 150 Hood River, county of Hood River

(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

Hood River, Oregon July 21, 1929

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Odell creek

(Name of stream)

tributary of Hood River

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 120 gallons per minute.

3. The use to which the water is to be applied is industrial

4. The well or other source is located 639 ft North and 560 ft East from the SW corner of NW 1/4, SE 1/4, Section 26, Township 2 North, Range 10 E.W.M.

(N. or S.)

(E. or W.)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the N.W. 1/4 of S.E. 1/4 of Sec. 26, Twp. 2 N, R. 10 E.W.M.

W. M., in the county of Hood River

5. The none to be miles in length, terminating in the of Sec. Twp.

(Canal or pipe line)

(Smallest legal subdivision)

R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Duckwall well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of eight inches and an estimated depth of 262 feet. It is estimated that 250 feet of the well will require Steel casing. Depth to water table is estimated 250.

(Give number of wells, tunnels, etc.)

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) none feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At none miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? . Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 6" deep well type

Give horsepower and type of motor or engine to be used 10 H. P. Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of ~~area to be irrigated~~, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	 Place of use
2N	10E	26	 NW1/4 SE 1/4	Ind. use in freezer plant

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised

MUNICIPAL SUPPLY--

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

14. Estimated cost of proposed works, \$ 6,000.00

15. Construction work will begin on or before July 1, 1958

16. Construction work will be completed on or before July 31, 1958

17. The water will be completely applied to the proposed use on or before August 1, 1958

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. _____

DUCKWALL BROS., INC.

Robert D. Duckwall President
(Signature of applicant)

Remarks: The water from this well will be used to operate a commercial fruit packing and cold storage plant located adjacent to the well.

The pump will be a 10 H. P. deep well turbin type discharging directly into the plant and controlled by pressure switches.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data. and return the same for _____ completion _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before August 5, 19 58.

WITNESS my hand this 5th day of June, 19 58.

LEWIS A. STANLEY STATE ENGINEER

By *James W. Carver, Jr.*
James W. Carver, Jr., Assistant

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.27 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is industrial

If for irrigation, this appropriation shall be limited to - - of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The priority date of this permit is May 21, 1958

Actual construction work shall begin on or before July 25, 1959 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19 59

Complete application of the water to the proposed use shall be made on or before October 1, 19 60

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the ground water withdrawn.

WITNESS my hand this 25th day of July, 19 58.
