

Permit No. _____

G 8918

STATE OF OREGON WATER RESOURCES DEPARTMENT

AUG 0 1 1980

Application for a Permit to Appropriate Ground Water

I,the City of Reedsport

(Name of Applicant)

of.....451 Winchester Avenue.....

(Mailing Address)

Reedsport

(City)

State of Oregon, 97467 Phone No. 271-3603 do hereby
(Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 3 wells

(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 14-16 inches and an estimated depth of 100 feet.

2. The well or other source is to be located ft..... and ft.....

(N. or S.)

(E. or W.)

from the corner of

(Public Land Survey Corner)

See supplemental information #2

(If there is more than one well, each must be described)

..... being within the $\frac{1}{4}$ of the $\frac{1}{4}$ of

Sec. Tp. R., W. M., in the county of..... DOUGLAS

3. *Location of area to be irrigated, or place of use if use other than irrigation.*

[illegible]

4. It is estimated that⁵⁰..... feet of the well will require welded casing.
(Kind)

5. Depth to water table is estimated 5 feet... Well drilled by.....
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet
per second or gallons per minute. *see supp'l info #6*

7. The use to which the water is to be applied is *See supplemental information #7*

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

N/A

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

N/A

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Engineering of the system for pipe sizes, types, intertie system and pump sizes
will be undertaken as funding sources are obtained through normal city budget
processes. A review of available State or Federal funding sources will be
undertaken to insure a speedy determination of the needs.

11. Construction work will begin on or before

12. Construction work will be completed on or before

13. The water will be completely applied to the proposed use on or before *As needed see below*

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. *See supplemental information #14*

Application No.

M-9861

Permit No.

G 8918

SUPPLEMENTAL INFORMATION (REVISED)

2. The three (3) proposed wells are to be located as follows:

Well Number 1: 2110 feet south and 2135 feet west of the northeast corner of Section 35, Township 22, Range 13 W. W. M.

Well Number 2: 860 feet north and 860 feet west of the southeast corner of Section 26, Township 22, Range 13 W. W. M.

Well Number 3: 800 feet north and 75 feet west of the southeast corner of Section 14, Township 22, Range 13 W. W. M.

3. The water derived from these wells will be used within the following area:

Township 21, Range 12, Section 34 NW $\frac{1}{4}$ SE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$,
SW $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$,
SW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$,
SE $\frac{1}{4}$ NE $\frac{1}{4}$,

Township 21, Range 12, Section 35 SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$,
NW $\frac{1}{4}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$,

The above represents the area of the Reedsport Water System, which includes Gardiner, Reedsport, and Winchester Bay.

Application No. G-9861

Permit No. G 8918

6. 100 gallons per minute per well for a total demand of 300 gallons per minute.
7. The development of the wells would provide the City's water system with an additional source of water during periods of low water in Clear Lake and as an emergency source in the event the Clear Lake source was contaminated.
10. The total project as proposed would involve no less than 3 miles of transmission pipe of no less than 18 inches in size. The type of pipe would be determined by detailed engineering plans. Pump size and type would also require a further review by the City's Engineer. As presently projected, the transmission line will run adjacent to the existing road then to a point, turn and tie into the present City water line in the area of Umpqua Lighthouse. All necessary paper work to obtain the needed easements of right-of-ways are in the draft stage at this time.

WATER RESOURCES DEPT
SALEM, OREGON

Remarks: This application is being filed in order to insure the City an

adequate supply of safe domestic drinking water. The land that these wells

will be located on is currently under the ownership of the Oregon State Parks

Department, but this area is a portion of the proposed land swap between the

Oregon State Parks Department and the United States Forest Service (see supp-

mental information "Remarks").

Application No. G-9861

Permit No. G 8918

G 8918

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 300 gallons per minute ~~cubic feet per second~~ measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from three wells being 100 gallons per minute from each well

The use to which this water is to be applied is municipal

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 1, 1980

Actual construction work shall begin on or before August 25, 1981 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1981

Extended to Oct. 1, 1986 Extended to October 1, 1991, 10-1-96 Ext. BC01

Complete application of the water to the proposed use shall be made on or before October 1, 1982

Extended to Oct. 1, 1986 Extended to October 1, 1991, 10-1-96

WITNESS my hand this 25th day of August, 1980
