Permit No. G-.....

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

We, Glenmorrie Cooperative Association, Incorporated, Salem, Ore., 1927
(Name of applicant)

of Oswego, county of Clackamas
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

Incorporated September 1927, Salem, Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willamette River, approximately 2/3 mile to the northeast
(Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 200 gallons per minute.

3. The use to which the water is to be applied is domestic, for residents in the Glenmorrie and Glenmorrie Park districts

4. The well or other source is located 56 ft. west ~~XXXX~~ ~~XXXX~~ from the east easterly corner of Lot 77, Glenmorrie Park, a subdivision located in Clackamas County, Oregon, and 240 feet west and 657 feet south of the NE corner of Sec. 15
(Section or subdivision)
(If preferable, give distance and bearing to section corner)

If there is more than one well, it must be described. Use separate sheet if necessary.

being within the NE 1/4 NE 1/4 of Sec. 15, Twp. 2 S, R. 1 E

W. M. of the county of Clackamas

5. The existing pipe lines are already installed. The well is approximately 20 feet from the existing reservoir. Its length terminating in the of Sec. Twp.

6. W. M. the proposed location being shown throughout on the accompanying map.

7. The name of the well or other works is No. 3

DESCRIPTION OF WORKS

8. If the water to be utilized is artesian, the works to be used for the control and conservation of the water, when not in use, must be described

Not artesian.

9. The development will consist of 1 well diameter of 10 inches and an estimated depth of 450 feet. It is estimated that feet of the well will require 10" standard pipe ing. Depth to water table is estimated 400

(Kind)

H.C.

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, _____ ft.; size at intake, _____ in.; in size at _____ ft from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft.

10. If pumps are to be used, give size and type Deep well turbine, 2½ inches

Give horsepower and type of motor or engine to be used Electric, 25 horse power

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channel, and the difference in elevation between the stream bed and the ground surface at the source of development

Over one-quarter mile distant from Willamette River. A very small intermittent stream is 80 feet northerly and about 15 feet below the ground surface at the proposed well.

12. Location of area to be irrigated, or place of use

Township N or S	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
2 South	1 East	10	Part of SE¼ SE¼	Domestic use
		11	" " SW¼ SW¼	" "
		11	" " SE¼ SW¼	" "
		14	" " NE¼ NW¼	" "
		14	" " NW¼ NW¼	" "
		14	" " SW¼ LW¼	" "
		15	" " NE¼ NE¼	" "
		15	" " NW¼ NE¼	" "
		15	" " SW¼ NE¼	" "
		15	" " SE¼ NE¼	" "

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised

MUNICIPAL SUPPLY-

B. To supply ~~water~~ Glenmorrie and Glenmorrie Park districts,
in Clackamas County county, having a present population of 83 families
and an estimated population of 100 families in 19 60

14. Estimated cost of proposed works, \$8,500.00

15. Construction work will begin on or before January 15, 1956

16. Construction work will be completed on or before April 30, 1956

17. The water will be completely applied to the proposed use ~~as proposed~~ when well is completed.

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. (See remarks.)

GLENMORRIE COOPERATIVE ASSOCIATION

By John C. Hutchins President.
(Signature of applicant)

Remarks:

The proposed well is adjacent to an existing well, No.1, owned and operated by the Glenmorrie Cooperative Association. The No.1 well has a diameter of only six inches. The new well will have a ten inch diameter and a more efficient pump, and it is expected the output of water thus can be greatly increased so that well No.1 will be used principally for standby purposes.

Another well, No.2, located at the junction of Cherry Lane and Chapin Road in Glenmorrie Park is at present the principal source of water for the rapidly-growing community in Glenmorrie and Glenmorrie Park, and an additional supply of water is needed to meet the demand.

These two wells were drilled several years ago and have been operated continuously by the Glenmorrie Cooperative Assn., a mutual organization of home owners in the Glenmorrie and Glenmorrie Park districts, organized to furnish water to the members.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with communication on or before _____, 19 _____

WITNESS my hand this _____ day of _____, 19 _____

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.45 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Well No. 3.

The use to which this water is to be applied is municipal (all of the purposes for which water could be used in a city under a right initiated for municipal use)

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The priority date of this permit is December 6, 1955

Actual construction work shall begin on or before December 20, 1956 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1957

Complete application of the water to the proposed use shall be made on or before October 1, 1957. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

WITNESS my hand this 20th day of December, 1955.

STATE ENGINEER
