Application No. G-9698

Permit No. G 9009

STATE OF OREGON WATER RESOURCES DEPARTMENT RECEIVED

Application for a Permit to Appropriate Ground Water APR 23 1980

WATER RESOURCES DEPT. SALEM, OREGON

I, J. R. SIMPLOT CO. (Name of Applicant)

of P.O. Box 1059 CALDWELL (Mailing Address) (City)

State of IDAHO 83605 Phone No. (208) 459-0071 (Zip Code) do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 WELL (#6) (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 14" and an estimated depth of 10.50 feet.

2. The well or other source is to be located 400 ft. N. and 2880 ft. E. (N. or S.) (E. or W.)

from the SW corner of SECTION 26 (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SW 1/4 of the SE 1/4 of Sec. 26 Tp. 4N R. 28E, W. M., in the county of UMATILLA

3. Location of area to be irrigated, or place of use if use other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Includes handwritten entries for sections 26, 27, 28, 33, 34, 35 and various quarter-section acreages.

4. It is estimated that 187 feet of the well will require 250 casing. (Kind)

5. Depth to water table is estimated 240 Well drilled by Wallace Well Drilling. (Feet)

6. The amount of water which the applicant intends to apply to beneficial use is ..... cubic feet per second or 1975 gallons per minute.

7. The use to which the water is to be applied is SUPPLEMENTAL IRRIGATION AND USE IN A FOOD PROCESSING PLANT (SEE REMARKS)

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10. **DESCRIPTION OF WORKS**

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Same size pump as well #4 water to be pumped into existing pipeline to supply food processing plant and irrigation system in case of failure of well #4. System will be installed and tested at regular intervals

11. Construction work will begin on or before 1 yr from date of permit

12. Construction work will be completed on or before Oct 1, 1982

13. The water will be completely applied to the proposed use on or before Oct 1, 1983

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. Permit G-8298 and prior filings

Application No. G-9698

Permit No. **G 9009**

1000

Remarks: Water from the well will be used for standby purposes in food processing with irrigation water to come from waste water from the food processing plant to the extent it is available and direct from the well only when sufficient waste water is not available

THIS APPLICATION PREPARED BY:

Don Buell

FROM INFORMATION FURNISHED BY THE APPLICANT.

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Application No. G-9698

Permit No. G 9009

### Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1975 gallons per minute measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Well No. 6.

The use to which this water is to be applied is use in a food processing plant and supplemental irrigation, providing that the primary source of water for irrigation shall be from waste water from food processing, and direct appropriation from the well for periods and in quantities required to make up any deficiency in the available\*

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

\*supply from waste water providing the total quantity appropriated for all uses shall not exceed 1975 gpm.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 23, 1980

Actual construction work shall begin on or before November 26, 1981 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 26th day of November 26, 1980
