11. Construction work will begin on or before April 1 1979

12. Construction work will be completed on or before May 30 1980

13. The water will be completely applied to the proposed use on or before May 30 1980

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. 1 Well Permit No. G 8306

Remarks: We have our main supply line ending beside each well so that we do use water from each or all 3 wells on all 327 acres at varying intervals or situations. We have done this for possible breakdowns in one well necessitating diverting water from other wells to help. We thought this would create a "supplement" situation for all wells on all 327 ac.

Permit No. G 9013

G 9013

Application No. G-9468

Permit No. G 8043

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 3.57 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from wells Nos. 2 and 3; being 1.34 cfs from well No. 2 and 2.23 cfs from well No. 3.

MAJOR The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is November 13, 1979

Actual construction work shall begin on or before November 26, 1981 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 26th day of November , 1980
