

Application No. G-9824

Permit No. G 9057

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

RECEIVED JUL 7 1980 WATER RESOURCES DEPT SALEM, OREGON

I, Lionel D. Shurtleff (Name of Applicant)

of Rt 1 Box 31 (Mailing Address) Haines (City)

State of Oregon, 97833 (Zip Code) Phone No. 856-3652 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one gravell pit and one well. (Give number of wells, tile lines, infiltration galleries, etc.)

well- 6' in dia. & 25' deep having a diameter of pit- 350 feet and an estimated depth of 10 feet.

2. The well or other source is to be located 80 ft. N (N. or S.) and 860 ft. W (E. or W.)

from the SE corner of Section 35, T. 7 S., R. 38 E. W.M. (Public Land Survey Corner)

[The well located 200' s and 1280' w from the E 1/4 corner, Sec. 35,

(If there is more than one well, each must be described)

T. 7 S R. 38 E. W.M.] being within the SE 1/4 of the SE 1/4 of

Sec. 35 Tp. 7 S R. 38 E, W. M., in the county of Baker

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
7 S	38 E	35	NE 1/4 SE 1/4	40 acres
7 S	38 E	35	SE 1/4 SE 1/4	3.2 acres

4. It is estimated that none feet of the well will require none casing. (Kind)

5. Depth to water table is estimated 3 Well ^{dug} drilled by Unknown (Feet)

6. The amount of water which the applicant intends to apply to beneficial use is 0.54 cubic feet per second or gallons per minute.

7. The use to which the water is to be applied is Supplemental irrigation

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

Not artesian

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

The well is approximately 1/4 mile from Rock Creek

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

This acreage is intended to utilize existing pump from existing gravel pit which already irrigates adjoining acreage under C-37774. I am planning to use hand pack sprinkler pipe to irrigate the additional acreage.

11. Construction work will begin on or before July 1, 1981

12. Construction work will be completed on or before July 1, 1982

13. The water will be completely applied to the proposed use on or before July 1, 1983

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. The right will be supplemental to C47144.

Application No. G-9824

Permit No. G 9057

Remarks: I am intending to use the gravell pit
for the entire acreage unless it's supply is not
sufficient then I will use the well for some of
the NE 1/4 SE 1/4, Sec 35.

Application No. G-9824

Permit No. G 9057

G 9057

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.54 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a

gravel pit, with any deficiency in the available supply from the gravel pit to be made up by diversion from a well.

The use to which this water is to be applied is supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein, and shall be further limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

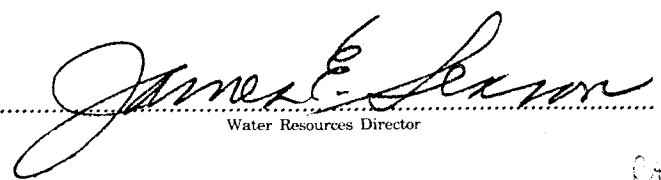

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 7, 1980

Actual construction work shall begin on or before January 5, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 5th day of January, 1981

Water Resources Director
