STATE OF OREGON WATER RESOURCES DEPARTMENT RECEIVED

Application for a Permit to Appropriate Ground Water JUL 30 1980

WATER RESOURCES DEPT SALEM, OREGON

I, Steve McBride (Name of Applicant)

of P.O. Box 92, Jamieson (Mailing Address) (City)

State of Oregon, 97909 (Zip Code) Phone No. 473 2112 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 Well (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 14" and an estimated depth of 940 feet.

2. The well or other source is to be located ft. (N. or S.) and ft. (E. or W.)

from the corner of (Public Land Survey Corner)

N 82° 55' E of the NW cor. Sec. 3, T. 16 S, R. 43 E.

(If there is more than one well, each must be described)

being within the SE 1/4 of the SW 1/4 of

Sec. 34 Tp. 15 S R. 43 E, W. M., in the county of Malheur.

3. Location of area to be irrigated, or place of use if use other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Rows include township 155 and 16 S, ranges 43 E, sections 34 and 3, and various quarter sections with acreage and 'Prime' designation.

4. It is estimated that 670 feet of the well will require 12" 5/8" casing (Kind)

5. Depth to water table is estimated 219 (Feet) Well drilled by

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 1300 gallons per minute.

7. The use to which the water is to be applied is Irrigation

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

125 HP Gould Pump (Electric) also a 75 H.P. Booster Pump (Gould) at well site
1736' 6" buried PVC to North pivot
2021' 8" " " " South " "
5600' 8" " " " from South Pivot to irrigation ditch located in SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 3. Also 850' of buried PVC from Well No. 3. This carries water to a dry gulch and by open ditch to the irrigation ditch in the NW cor of NW $\frac{1}{4}$ SW $\frac{1}{4}$ as shown

11. Construction work will begin on or before started

12. Construction work will be completed on or before June 1, 1982

13. The water will be completely applied to the proposed use on or before June 1, 1983

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. The supplemental irrigation applies to lands under Orchard Water Co. Vale Ore. Irrigation Dist and to lands shown on Application G-1452

9059

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1300 gallons per minute measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from one well.

The use to which this water is to be applied is irrigation and supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 30, 1980.

Actual construction work shall begin on or before January 5, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982.

Complete application of the water to the proposed use shall be made on or before October 1, 1983.

WITNESS my hand this 5th day of January, 1981.

James E. Larson
Water Resources Director
