

Application No. A-9975

Permit No. G 9099

STATE OF OREGON WATER RESOURCES DEPARTMENT
Application for a Permit to Appropriate Ground Water

RECEIVED
 OCT 3 1980
 WATER RESOURCES DEPT
 SALEM, OREGON

I, Glen Arneson (Name of Applicant)

of 1445 S.E. 1st Ave. (Mailing Address) Carby (City)

State of Oregon, 97013 (Zip Code) Phone No. 266-9665 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 well (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 8 and an estimated depth of 200 feet.

2. The well or other source is to be located 800 ft. S (N. or S.) and 100 ft. W (E. or W.)

from the NE 1/4 corner of Sec 7 (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the NE 1/4 of the SE 1/4 of Sec. 7 Tp. 4S R. 1E, W. M., in the county of Clackamas

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
45	1E	7	NE 1/4 of SE 1/4	Nursery Irrigation #66 Supplm. 234

200

4. It is estimated that 200 feet of the well will require Steel (Kind) casing.

5. Depth to water table is estimated 55' (Feet) Well drilled by SJM Drilling

6. The amount of water which the applicant intends to apply to beneficial use is 35 cubic feet per second or 156.8 gallons per minute.

7. The use to which the water is to be applied is Rursey Irrigation

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

17.0 ft of 8" casing

3.0 ft of 8" stainless steel screen

5 h.p. submersible pump may be changed to larger size as

2, 3, & 4 in. aluminum irrigation pipe to be used

11. Construction work will begin on or before May 1, 1980

12. Construction work will be completed on or before June 1980

13. The water will be completely applied to the proposed use on or before Sept 1981

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. This is supplemental to an existing well

with water right A's G-162 and G-6310

Application No. H-9975

Permit No. G 9099

C 3000

Remarks: This is to apply for water rights to land cleared since the previous water rights were issued plus supplemental rights to the existing well should it go bad and I need to use the new well for the ~~the~~ whole irrigation system.

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

0 0001

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.35 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from one well.

The use to which this water is to be applied is irrigation and supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 9, 1980.

Actual construction work shall begin on or before January 26, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982.

Complete application of the water to the proposed use shall be made on or before October 1, 1983.

WITNESS my hand this 26th day of January, 1981.
