

Application No. G-6804

Permit No. G 9106

STATE OF OREGON WATER RESOURCES DEPARTMENT
Application for a Permit to Appropriate Ground Water

I, Raley F. Peterson and Michael J. Kilby (Name of Applicant)

of P.O. Box 966 Pendleton (Mailing Address) (City)

State of Oregon 97801 Phone No. 503-276-6983 do hereby (Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of two (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of #1-12"; #2-10" and an estimated depth of #1-350'; #2-285' feet.

2. The well or other source is to be located (#2) 6996' ft. S and 1452' ft. E (N. or S.) (E. or W.)

from the NW corner of Sec. 1, T1N, R32E; Well #2 is S34°39'32"W. (Public Land Survey Corner)

5829 ft. from NE Corner, Sec. 1, T1N, R32E. (If there is more than one well, each must be described)

being within the 1/4 of the SW 1/4 of

Sec. 1 Tp. 1N R. 32E, W. M., in the county of Umatilla

3. Location of area to be irrigated, or place of use if use other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Includes data for Township 1N, Range 32E, Section 1, and a note 'GROUP DOMESTIC'.

4. It is estimated that #1-242" #2-242' feet of the well will require welded steel casing. #1 - Roy French

5. Depth to water table is estimated Well drilled by #2 - Troy Griffin (Feet)

6. The amount of water which the applicant intends to apply to beneficial use is 1.7 cubic feet per second ~~XXXXXXXXXXXXXXXXXXXX gallons per minute~~ plus 20,000 gal/day for group domestic.

7. The use to which the water is to be applied is group domestic; primary and supplemental irrigation.

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

N/A

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

N/A

10. **DESCRIPTION OF WORKS**

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

New well (shown on map as well "2") will be used in conjunction with existing well (shown on map as well "1") as part of a looped water system to serve the domestic and irrigation needs of 27 five acre tract owners. Existing well has permit No. G-3568. Well "2" will be primary domestic supply for 27 residential dwellings; no further development will be permitted; water from each well will be pumped into a 25,000 gal. concrete covered reservoir, then into a 6" looped main line pressure regulated by two 525 gal. pressure tanks. Each lot to have a 2" takeoff and gate valve.

This application supersedes G6804.

11. Construction work will begin on or before 10-1-80

12. Construction work will be completed on or before 10-1-81

13. The water will be completely applied to the proposed use on or before 10-1-82

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. Well #1; G-3568

Signature of Applicant

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for.....

In order to retain its priority, this application must be returned to the Water Resources Director with corrections on or before....., 19.....

WITNESS my hand this..... day of....., 19.....

Application No. G-6804

Permit No. G 9106

Permit to Appropriate the Public Waters of the State of Oregon

G 9106

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and 20,000 gallons per day and shall not exceed 1.7 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from two wells.

The use to which this water is to be applied is group domestic for 27 families and irrigation and supplemental irrigation, being 20,000 GPD from both wells for domestic, 1.0 c.f.s from Well 1 for primary irrigation and 1.7 c.f.s from Well 2 for supplemental irrigation, providing the total from both wells shall not exceed 1.7 c.f.s

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 4, 1975

Actual construction work shall begin on or before January 26, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982 Extended to Oct. 1985

Complete application of the water to the proposed use shall be made on or before October 1, 1983 Extended to Oct. 1985

WITNESS my hand this 26th day of January, 1981

Water Resources Director
