STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

DEC 17 1980

**WATER RESOURCES DE
SALZM, OREGON**

I, John E. Kelly.....
(Name of Applicant)

(Name of Applicant)

of.....Rte. 2.....Box. 174.....Milton.....Freewater.....
(Mailing Address) (City)

(City)

*State of.....Oregon....., 97862.....Phone No. 938-7935.....do hereby
(Zip Code)*

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of a well.....
(Give number of wells, tile lines, infiltration galleries, etc.)

(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 12¹¹ and an estimated depth of 235 feet.

2. The well or other source is to be located 60 ft. S. and 7.81 ft. W.
(N. or S.) (E. or W.)

from the NE corner of NW¹/₄ of SW¹/₄ of Section 33 Tp. 6 N R. 35.....
(Public Land Survey Corner)

(If there is more than one well, each must be described)

..... being within the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of
Sec. 33 Tp. 65 R. 35 , W.M., in the county of Umatilla.

3. Location of area to be irrigated, or place of use if use other than irrigation.

4. It is estimated that ...235..... feet of the well will require ...steel-P.V.C..... casing.
(Kind)

5. Depth to water table is estimated 127..... Well drilled by Glenn L. Parr.....
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or ...350..... gallons per minute.

SUPPLEMENTAL

7. The use to which the water is to be applied is irrigation.

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

a well 30HP Turbine for sprinkler system

11. Construction work will begin on or before.....9/24/80.

12. Construction work will be completed on or before.....6/1/81

13. The water will be completely applied to the proposed use on or before...6/1/81.

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.....

Application No. G-10057

Permit No. G 9162

Remarks: It is my intent to change the point of appropriation for the water right claimed under GR 3216 since that well has silted in when neighbor drilled new well within 300 feet of well. I am informed that I cannot formally do that so am filing this application to make of record this change and protect my current development in the event such is not allowed in the final adjudication. The application does not waive or abandon any vested right to ground water.

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Application No. G-10057

Permit No. G 9162

O 1986

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.75 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from..... a well

The use to which this water is to be applied is..... supplemental irrigation.....

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 $\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,.....

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is..... December 17, 1980.....

Actual construction work shall begin on or before March 3, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982.....

Complete application of the water to the proposed use shall be made on or before October 1, 1983.....

WITNESS my hand this 3rd day of..... March , 1981.....

Water Resources Director
