Application No. G-10203

Permit No. G 9238

STATE OF OREGON WATER RESOURCES DEPARTMENT RECEIVED

Application for a Permit to Appropriate Ground Water MAR 9 1981

WATER RESOURCES DEPT SALEM, OREGON

I, Robert M. Pardue (Name of Applicant)

of Rt # 6 Box 1820 (Mailing Address), Lakeview (City)

State of Oregon, 97630 (Zip Code) Phone No. 947-2859 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of One well (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 20" and an estimated depth of 770 feet.

2. The well or other source is to be located 1250 ft. South and 3000 ft. East (N. or S.) (E. or W.)

from the NW corner of Sec. 32 (Public Land Survey Corner)

(If there is more than one well, each must be described)

This Well being within the NE 1/4 of the NW 1/4 of Sec. 32 Tp. 39S R. 19E, W.M., in the county of Lake

3. Location of area to be irrigated, or place of use if use other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Contains handwritten entries for Township 39S, Range 19E, Section 32, and various quarter-section descriptions with acreage.

4. It is estimated that 750 feet of the well will require 12" Perforated casing.

5. Depth to water table is estimated 70 (Feet) Well drilled by C+C Entbe Drilling

6. The amount of water which the applicant intends to apply to beneficial use is 2.15 cubic feet per second or 1300 gallons per minute.

7. The use to which the water is to be applied is for irrigation of grain and pasture grasses.

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.  
NA

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.  
NA

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

8 stage 10" wheel assembly  
75 HP motor - 1770 RPM  
1316 ft Low Pressure Pivotal with 2 HP Endgun  
2 - 1/4 mile 5" wheel lines  
1/4 mile of 10" main line  
650 ft of 8" main line

11. Construction work will begin on or before Oct. 1, 1981 (has been started)

12. Construction work will be completed on or before Oct. 1, 1982

13. The water will be completely applied to the proposed use on or before Oct. 1, 1983

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. None

Application No. G-10203

Permit No. G 9238

G 8688

Remarks: Well has been completed  
Pivot has been set up  
Power lines are being installed now  
Pump will be installed by May-81  
Mainlines and wheel lines will be installed  
by 1983

### Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.15 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from one well.

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

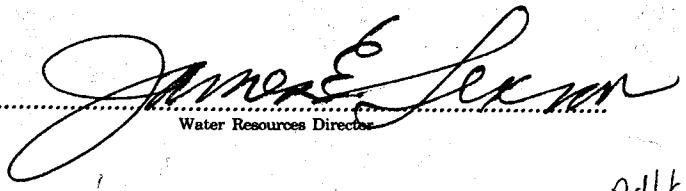

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.  
The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.  
The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.  
The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 9, 1981

Actual construction work shall begin on or before April 15, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 15th day of \_\_\_\_\_, 1983

  
Water Resources Director
