

Application No. G-10156

Permit No. G 9241

STATE OF OREGON WATER RESOURCES DEPARTMENT RECEIVED

Application for a Permit to Appropriate Ground Water FEB 12 1981

WATER RESOURCES DEPT SALEM, OREGON

I, City of Klamath Falls (Name of Applicant)

of P. O. Box 237, Klamath Falls (Mailing Address) (City)

State of Oregon (Zip Code) 97601 Phone No. 883-5366 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of One Well (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 16 inches and an estimated depth of 422 feet.

2. The well or other source is to be located 778 ft. N and 1414 ft. W (N. or S.) (E. or W.)

from the S.E. corner of 35 (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SE 1/4th of the 1/4 of

Sec. 35 Tp. 38S R. 9E, W. M., in the county of Klamath

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 of Section	List use and/or number of acres to be irrigated
38S	9E	35	All	Municipal
38S	9E	36	All	Municipal
39S	9E	1	All	Municipal
39S	9E	2	All	Municipal

4. It is estimated that 62'-.250 Solid feet of the well will require 16" casing. 360'-.250 Perforated (Kind)

5. Depth to water table is estimated 33' Well drilled by C. & C. Enloe (Feet)

6. The amount of water which the applicant intends to apply to beneficial use is 1.67 cubic feet per second or .750 gallons per minute.

7. The use to which the water is to be applied is Municipal

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

By City Bid - Byron Jackson, Deepwell Turbine, Model 11M01, 7 stage 10 1/2"

bowls - driven by 75 H.P. Synchronous Motor, 1800 R.P.M., 460 Volt, or equal

This well will supplement Northeast portion of the City of Klamath Falls Water Distribution System, through a 50' length of 8" pipe line, to a tie-in in the distribution system.

11. Construction work will begin on or before 4/1/1981

12. Construction work will be completed on or before 6/1/1981

13. The water will be completely applied to the proposed use on or before 7/1/1981

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. City of Klamath Falls Water System

Application No. G-10156

Permit No. G 9241

Permit to appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.67 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Homedale Well

The use to which this water is to be applied is municipal use.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.
The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.
The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.
The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 12, 1981

Actual construction work shall begin on or before April 15, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 15th day of April, 19 81

Water Resources Director
