make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 - 11/11 Almond in 13 e
(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 6" and an estimated depth of 175 feet.

2. The well or other source is to be located 400' ft. S and 200' ft. E
(N. or S.) (E. or W.)

from the A corner of Sec. 28, Twp 5N - R 29E
(Public Land Survey Corner)

NE corner of NE 1/4 of NE 1/4
(If there is more than one well, each must be described)

being within the N.E. 1/4 of the N.E. 1/4 of
Sec. 28, Tp. 5N, R. 29E, W.M., in the county of Mattawa

3. Location of area to be irrigated, or place of use if use other than irrigation.

| Township | Range | Section | List 1/4 of Section | List use and/or number of acres to be irrigated |
|-----------|------------|-----------|-------------------------|---|
| <u>5N</u> | <u>29E</u> | <u>28</u> | <u>NE 1/4 of NE 1/4</u> | <u>12 Acres for -</u> |
| <u>5N</u> | <u>29E</u> | <u>28</u> | <u>NE 1/4 of NE 1/4</u> | <u>12.73 Acres</u> |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |

4. It is estimated that 191 feet of the well will require 5 1-9" casing.
(Kind)

5. Depth to water table is estimated 100' Well drilled by Troy Gas Flint
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or ... 80 gallons per minute.

7. The use to which the water is to be applied is Irrigation S-14A.2

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

No. 7 - Date 10/30/74

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

None above - Except for drain ditch established by district

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

5 H.P. Submersible Pump supplying
water to House - Garden's field Field
System 13 2" P.V.C. mainline with 1 1/2"
laterals (all buried) placement of spraybly
13' diameter - lines 50' apart & 30' in bldrs
50' apart -

The well report for domestic use was
received by your office Nov. 6, 1974 - State Well
No. 5N129E/28

11. Construction work will begin on or before..... Completed 10/30/74

12. Construction work will be completed on or before..... 1974 to

13. The water will be completely applied to the proposed use on or before..... 1976 - completed

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing
water right. Herrington Irrigation district - though
Water master records indicate this portion (11 Acre)
now excluded from District.

Application No. G-9250

Permit No. G 9270

C 8550

Remarks: I understand when drafted, that this was in
the Irrigation district and I would need no further
water right. Now I realize I have no water
right for irrigation from either the ditch
or the well. I do have a 143 ac water right
on adjacent property from the Hermiston
Irrigation district. There was no irrigation
here prior to my development

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Application No. G-9850

Permit No. G 9270

C 8830

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.16 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 28, 1980.

Actual construction work shall begin on or before May 7, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19..82.....

Complete application of the water to the proposed use shall be made on or before October 1, 19..83.....

WITNESS my hand this 7th day of May , 19..81.....

James E. Larson
Water Resources Director
