

CERTIFICATE NO. 57751

Application No. G-10289

Permit No. G 9308

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

RECEIVED  
APR 27 1981  
WATER RESOURCES DEPT  
SALEM, OREGON

I, Kenneth J. Goeden

(Name of Applicant)

of P. O. Box 733 Hermiston  
(Mailing Address) (City)

State of Oregon, 97838 Phone No. 567-2249 do hereby  
(Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 well  
(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 6 inches and an estimated depth of 250 feet.

2. The well or other source is to be located 1520 ft. south and 60 ft. east  
(N. or S.) (E. or W.)

from the N 1/4 corner of Sec. 8  
(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SW 1/4 of the NE 1/4 of  
Sec. 8 Tp. 4N R. 29, W. M., in the county of Umatilla

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
4N	29	8	SW 1/4 NE 1/4	1.33 acres

4. It is estimated that 120 feet of the well will require steel casing.  
(Kind)

5. Depth to water table is estimated 65 Well drilled by Allison Drilling Co.  
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is .016 cubic feet per second or 7.2 gallons per minute.

7. The use to which the water is to be applied is irrigation

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

NA

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

NA

10.

**DESCRIPTION OF WORKS**

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

3 hp electric submersible pump

Operating <sup>to</sup> up 12 sprinkler heads, 1/8" orifice with two  
inch portable sprinkler pipe

completed

11. Construction work will begin on or before.....

completed

12. Construction work will be completed on or before.....

completed

13. The water will be completely applied to the proposed use on or before.....

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.....  
NA

Application No. G 10289

Permit No. G 9308

G 9308

*Remarks:* From the well report you will note that the well has been in operation for almost seven years. My error in securing a prior permit is obvious but not intentional. My plans are to establish a residence on the property when the windbreak offers protection. The acreage is being used as a fruit and vegetable hobbyist garden. Many of the articles are trials to determine their suitability to this area. At this time of the year soil moisture can become critical in a very dry year, and the plantings are now really vulnerable.

Your consideration in examining and approving this application at the earliest convenience is earnestly solicited.

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

G 2308

**Permit to Appropriate the Public Waters of the State of Oregon**

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.16 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 27, 1981

Actual construction work shall begin on or before May 29, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 29th day of May, 1981

*James E. Larson*  
Water Resources Director
