Application No. G-9600

Permit No. G 9317

RECEIVED STATE OF OREGON WATER RESOURCES DEPARTMENT RECEIVED

MAR 10 1980 Application for a Permit to Appropriate Ground Water MAY 18 1981

WATER RESOURCES DEPT.

WATER RESOURCES DEPT.

SALEM, OREGON PAUL ESTERGAARD (by Crowson Island Farm)

SALEM, OREGON

of P.O. Box 604 Winchester Bay, Ore. 97467

State of Oregon 97467 Phone No. 271-3909 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 well

having a diameter of 4" and an estimated depth of 20' feet.

2. The well or other source is to be located 400' S and 275' W

from the CENTER corner of Section 30

(If there is more than one well, each must be described)

being within the NE 1/4 of the SW 1/4 of

Sec. 30 Tp. 14S R. 4W, W. M., in the county of Benton

3. Location of area to be irrigated, or place of use if use other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Row 1: 14S, 4W, 30, NE 1/4 SW 1/4, [scribble] //

4. It is estimated that 20' feet of the well will require Steel casing.

5. Depth to water table is estimated 12' Well drilled by Unknown

\$ 20.00
10.00
\$ 30.00

6. The amount of water which the applicant intends to apply to beneficial use is0.28..... cubic feet per second or gallons per minute.

7. The use to which the water is to be applied isirrigation.....

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10. **DESCRIPTION OF WORKS**

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

We will use a centrifigul type pump connected to a 30 horsepower gasoline engine. Distribution will be above ground aluminum pipe.

We will use 4" main supply line with 3" lateral line. Sprinklers will consist of 7 gal per minute Rainbirds with 18 of these per acre.

11. Construction work will begin on or before.....Started.....

12. Construction work will be completed on or before.....June 1980.....

13. The water will be completely applied to the proposed use on or before.....June 1982.....

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Application No. G-9600

Permit No. G 9317

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.13 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from one well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.
The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 10, 1980

Actual construction work shall begin on or before June 15, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 15th day of June, 1981

Water Resources Director
