RECEIVED JUN 21 1980 WATER RESOURCES DEPT SALEM, OREGON

I, Delwin E. Wiseman (Name of Applicant)

of P.O. Box 297, Loucks Rd, Madras (Mailing Address) (City)

State of Oregon, 97741 Phone No. 475-2625 do hereby (Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of One well (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 6 inches and an estimated depth of 285 feet.

2. The well or other source is to be located 117.0 ft. E and 40 ft. S (N. or S.) (E. or W.)

from the center 1/4 corner of Sec 32 T10S R14E (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the 1/4 of the 1/4 of Sec. 32 Tp. 10 S R. 14 E, W. M., in the county of Jefferson

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
10	South 14 East	32	N 1/2 NW 1/4 E	12 acres

4. It is estimated that 16 ft. feet of the well will require Cement Shout casing. (Kind)

5. Depth to water table is estimated 244 (Feet) Well drilled by Bert Ahrens

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 15 gallons per minute. With a 2ft drawn down

7. The use to which the water is to be applied is 12 acres of dry land around house

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

It is not artesian. But ^{water} bocked hole to 40 ft when they hit water.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

not close to a stream bed 5 miles to Willow Creek

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

We were only going to use our garden hoses to water as much as we can around house out of yard area. just using our Sauback horse submersible pump that we use at house

11. Construction work will begin on or before its done

12. Construction work will be completed on or before _____

13. The water will be completely applied to the proposed use on or before May 20, 1981

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. We have 5 1/2 acres of irrigation through north unit. Irrigation dist on lower half of land.

Remarks:

Our neighbor has put down a well to irrigate his fields next door. We were afraid he would drain our well. North Unit said it would be a good idea to file to protect our well from being drained by neighbors. We might not irrigate from well very much at all.

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.033 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from 1 well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 21, 1980

Actual construction work shall begin on or before July 7, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 7th day of July, 1981
