

Application No. G-10363

Permit No. G 9395

STATE OF OREGON WATER RESOURCES DEPARTMENT

RECEIVED

JUN 5 1981

Application for a Permit to Appropriate Ground Water

WATER RESOURCES DEPT SALEM, OREGON

I, Burt Vaughn, representing the Boise Cascade Corp. NW Ore. Region (Name of Applicant)

of P. O. Box 290 Monmouth (Mailing Address) (City)

State of Oregon 97321 Phone No. 503-838-1610 do hereby (Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 12 inches and an estimated depth of 85 feet.

2. The well or other source is to be located 280 ft. N and 2964 ft. E (N. or S.) (E. or W.)

from the N.W. corner of CL 63 (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SE 1/4 of the NW 1/4 of Sec. 21 Tp. 8S R. 4W, W. M., in the county of Polk

3. Location of area to be irrigated, or place of use if use other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 of Section, List use and/or number of acres to be irrigated. Includes handwritten 'MB' and 'Sprinkle Logs' entries.

4. It is estimated that 85 feet of the well will require 12" steel casing. (Kind)

5. Depth to water table is estimated 27' Well drilled by Eola Wells (Feet)

6. The amount of water which the applicant intends to apply to beneficial use is 1,114 cubic feet per second or 500 gallons per minute.

7. The use to which the water is to be applied is Sprinkle logs to keep them from becoming dry.

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

N/A

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

N/A

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

A 10 hp submersible electric pump will be used to pump water through a 4" pipe approximately 100' south to Boise Cascade's log pond. Pond water will then be pumped out of the pond using a 40 hp centrifical pump to sprinkle decked logs.

11. Construction work will begin on or before July 1, 1981

12. Construction work will be completed on or before July 8, 1981

13. The water will be completely applied to the proposed use on or before July 9, 1981

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.

Application No. G 10363

Permit No. G 9395

Remarks:

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.114 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from one well

The use to which this water is to be applied is log sprinkling

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 5, 1981

Actual construction work shall begin on or before August 20, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 20th day of August, 1981

James E. Laxon
Water Resources Director
