

"CERTIFICATE NO. 107019"

WOLF 1982 A6

Application No. G 10267

Permit No. G 9410

STATE OF OREGON WATER RESOURCES DEPARTMENT

RECEIVED

Application for a Permit to Appropriate Ground Water

APR 10 1981

WATER RESOURCES DIV.

SALEM, OREGON

I, Richard Lyle Sharp (Name of Applicant)

of 741 W. Jackson St (Mailing Address), Medford (City)

State of Oregon, 97501 (Zip Code) Phone No. (503) 773-8904 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 6" and an estimated depth of 120 feet.

2. The well or other source is to be located 40 ft. S (N. or S.) and 120 ft. E (E. or W.)

from the N.W. corner of E 1/2 Donation Land Claim Number 40 (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the N.E. 1/4 of the S.E. 1/4 of

Sec. 28 Tp. 38 S R. 3 W, W. M., in the county of Jackson

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
<u>38 S</u>	<u>3 W</u>	<u>28</u>	<u>NE 1/4 SE 1/4</u>	<u>10 acres</u>

4. It is estimated that 60 feet of the well will require welded casing. (Kind)

5. Depth to water table is estimated 65 (Feet) Well drilled by Virgle Gribble

6. The amount of water which the applicant intends to apply to beneficial use is ..... cubic feet per second or ~~70~~ <sup>20.83</sup> gallons per minute.

7. The use to which the water is to be applied is ..... ~~irrigation for drip~~ <sup>irrigation for drip</sup> irrigation for grapes (13 gpm), (5 gpm for domestic use)

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.  
N/A

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.  
N/A

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

~~Supply pipeline - 216 feet & 18 600 foot rows.  
1/2 horse power, 220 volt, 11 1/2 amp, single phase submersible.  
Three acres to be drip irrigated in three phases; two hours per acre every other day. Water is to be pumped from well to supply pipeline & through 6 of the 18 600 foot drip irrigation systems at a time.~~

Supply pipeline: approx. 380 feet long serving 52 rows approx. 650 feet long.  
Pump: 1/2 horse power, 220 volt, 11 1/2 amp, single phase, submersible  
Thirteen rows (approx. 2 1/2 acres) will be <sup>drip</sup> irrigated at one time, two hours every other day. Each thirteen row section contains approx. 1250 vines with each vine receiving one gallon ~~of~~ of water per hour.

11. Construction work will begin on or before ~~March 1, 1982~~ April 1, 1982

12. Construction work will be completed on or before July 1, 1982

13. The water will be completely applied to the proposed use on or before July 1, 1982

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.  
N/A

Application No. G 10267

Permit No. G 9410

G 9410

Remarks: Having been in error in preparing this application initially, I have since learned that I should apply for the amount of water that I will ultimately use. I believe I have correctly done so in this application. Sorry about the delay.

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

### Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.046 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 10, 1981 for 0.029 cfs and July 23, 1981 for 0.017 cfs

Actual construction work shall begin on or before August 20, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Extended to Oct. 1, 1983

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 20th day of August, 1981

James B. Seaman  
Water Resources Director
