

Application No. G 10260

Permit No. G 9416

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water APR 8 1991

WATER RESOURCES DEP
SALEM, OREGON

I, Alan B. Coates
(Name of Applicant)

of Rte. 2 Box 545 Prineville
(Mailing Address) (City)

State of Oregon 97754 Phone No. 447 6873
(Zip Code)

do hereby make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well
(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 6 inches and an estimated depth of 42 feet.

2. The well or other source is to be located 609 ft. North and 277 ft. East
(N. or S.) (E. or W.)

from the Southwest corner of Northeast quarter of the Northeast quarter
(Public Land Survey Corner)

of Section 2

(If there is more than one well, each must be described)

being within the Northeast $\frac{1}{4}$ of the Northeast $\frac{1}{4}$ of

Sec. 2 Tp. 15 South R. 16 East, W. M., in the county of Crook

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
15 S	16 E	2	NE $\frac{1}{4}$ NE $\frac{1}{4}$	Domestic and irrigate 2 acres

4. It is estimated that 42 feet of the well will require 6 inch casing.
(Kind)

5. Depth to water table is estimated 30 Well drilled by Maphet Well Drilling
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 30 gallons per minute.

No domestic
supply

7. The use to which the water is to be applied is Irrigation

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

OchocoCreek is approx 1000 feet to the South and approx 15 feet lower.

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

The pump is a one horse submersible type. A one inch line goes to the house. The Irrigation system consists of temporary sprinkler pipe, 1 1/2 inch diam. and approx 200 feet of 1 1/2 inch plastic pipe above ground to feed the sprinklers.

11. Construction work will begin on or before..... Completed 1977

12. Construction work will be completed on or before..... 1977

13. The water will be completely applied to the proposed use on or before..... 1977

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.03 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; and shall be further limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 8, 1981

Actual construction work shall begin on or before September 10, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 10th day of September, 1981

James E. Seaman Water Resources Director
