

Application No. G 9775

Permit No. G 9447

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

RECEIVED
JUN 10 1980
WATER RESOURCES DEPT
SALEM, OREGON

I, United States, Deschutes National Forest
(Name of Applicant)

of 211 NE Revere, Bend,
(Mailing Address) (City)

State of Oregon, 97701 Phone No. 503-382-6922 do hereby
(Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 Well
(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 8 inches and an estimated depth of 67 feet.

2. The well or other source is to be located 125 ft. N and 230 ft. E
(N. or S.) (E. or W.)

from the East 1/4 corner of Sec. 27 T. 13S. R. 8E.
(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SW 1/4 of the NW 1/4 of
Sec. 26 Tp. 13S. R. 8E., W. M., in the county of Jefferson

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
13 S	8 E	24	NE of SW	Suttle Lake Picnic Area
13 S	8 E	24	NE of SW	Suttle Lake Guard Station
13 S	8 E	25	NW of NW	Blue Bay Campground
13 S	8 E	26	N 1/2 of NE 1/4 SW of NE	South Shore Campground
13 S	8 E	26	NE 1/4 of SW 1/4 & W 1/2 of SE 1/4	Scout Lake Campground
13 S	8 E	26	SW of NW	Link Creek Campground
13 S	8 E	26	NW of NW	Suttle Lake Water Ski Area

4. It is estimated that 67 feet of the well will require Steel casing.
(Kind)

5. Depth to water table is estimated 32 Well drilled by Crawford Well Drilling
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is 0100 cubic feet per second or 45 gallons per minute.

7. The use to which the water is to be applied is Potable water supply for recreational areas which includes picnic areas, campgrounds and a Forest Service Guard Station

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

N/A

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

Link Creek is 800 feet North of well location and 20 ft. lower in elevation. Waterline located in and close to Link Creek.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

7½ HP submersible pump in well, 45 GPM, 2-inch PVC pumpline to water storage tank, 2430 L.F. 15,000 gallon reinforced concrete water tank, 4 inch PVC gravity main distribution line, 8380 L.F.

Various waterline sizes and amount of PVC pipe within Suttle Lake Picnic Area; Suttle Lake Guard Station, Blue Bay Campground, South Shore Campground, Link Creek Campground, Suttle Lake Water Ski Area; and Scout Lake Campground distribution systems

11. Construction work will begin on or before July 1980, well completed now.

12. Construction work will be completed on or before November 1980, well completed now.

13. The water will be completely applied to the proposed use on or before November 1980

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. N/A

Application No. G 9115

Permit No. G 9447

C 0315

Remarks: This application does not relinquish any further reserved or beneficial use dates the United States may have.

Facilities served by this water have been developed to the potential of serving 1235 people at one time.

Application No. G. 9775

Permit No. G 9447

C 8115

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.1 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from one well

The use to which this water is to be applied is potable supply for recreational area which includes picnic areas, campgrounds and Forest Service Guard Station

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

This appropriation is limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 10, 1980

Actual construction work shall begin on or before October 29, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1983

Complete application of the water to the proposed use shall be made on or before October 1, 1984

WITNESS my hand this 29th day of October, 1981

James E. Lewis
Water Resources Director
