

Application No. ~~G-9433~~ G-10408

Permit No. G 9456

STATE OF OREGON WATER RESOURCES DEPARTMENT RECEIVED

AMENDED Application for a Permit to Appropriate Ground Water JUN 17 1981

WATER RESOURCES DEPT SALEM, OREGON

I, C & B Livestock, Inc. (Name of Applicant)

of Post Office Box 109 Hermiston (Mailing Address) (City)

State of Oregon 97838 Phone No. 1-503-567-5552 do hereby (Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of utilizing existing C & B Well No. 3 (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 12 inches and an estimated depth of 560 feet.

2. The well or other source is located 2480 ft. N. and 2700 ft. E. (N. or S.) (E. or W.)

from the SW corner of Section 22, Township 4N, Range 28 East (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the NW 1/4 of the SE 1/4 of Sec. 22 Tp. 4N R. 28E, W. M., in the county of Umatilla

3. Location of area to be irrigated, or place of use if use other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Contains data for Township 4N, Range 28E, Section 27.

4. It is estimated that 249 feet of the well will require steel casing. (Kind)

5. Depth to water table is estimated 250 feet. Well drilled by Hershey and deepened by Troy Griffin. (Feet)

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 600 gallons per minute.

7. The use to which the water is to be applied is Irrigation of 60 acres.....

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

Not adjacent to any stream.

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

..... An 8" pipeline exists from Pump No. 3 running to a point.....
..... adjacent to the County road at pump house No. 2. The.....
..... development will tie this line with a line South of the.....
..... County road that goes to the Lockwood 2100 Pivot which will.....
..... operate in a half circle pattern covering the estimated.....
..... 60 acres.....

11. Construction work will begin on or before..... July 14, 1981.....

12. Construction work will be completed on or before..... October 1, 1981.....

13. The water will be completely applied to the proposed use on or before..... October 1, 1982.....

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.....

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Signature of Applicant

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for.....

In order to retain its priority, this application must be returned to the Water Resources Director with corrections on or before....., 19.....

Application No. G-10408

Permit No. G 9456

U 0122

Permit to appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.75 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from C&B Well 3

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 26, 1981

Actual construction work shall begin on or before October 29, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1983

Complete application of the water to the proposed use shall be made on or before October 1, 1984

WITNESS my hand this 29th day of October, 1981

Water Resources Director
