

* Reservoir Permit No. R-1012

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, CARL R. STAATS (Name of Applicant)

of Route #1 Box 16, Salem, Oregon (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Staats Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Winslow Gulch

to be stored of seasonal surface water and underground water

3. The amount of water to be stored is less than 3,000,000 Gals. acre feet.

4. The use to be made of the impounded water is irrigation, livestock, domestic and personal (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. Lots 20, 21, 22, Clarkview Fruit Farms (Give sections or townships to be submerged)

Tp. 7 S., R. 3, W. M., in the county of Polk, State of Oregon

(a) State whether situated in channel of running stream and give character of material at outlet situate in center of stream and gulch in which stream located;

material at outlet: dirt embankment, with concrete outlet

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in approx. 3/4 on Lot 20, 1/4 on Lot 21, Sec. 18 Clarkview Fruit Farms (Division)

Tp. 7S, R. 3, W. M. The maximum height will be 10 feet above stream bed or ground

surface on center line of dam. The length on top will be approx. 600 feet; length on

bottom approx. 500 feet; width on top 10 feet; slope of front

or water side 3 to 1; slope on back 2 to 1; height of dam above water line

when full 1 Ft or more feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: compacted clay, standard construction

8. The location of wasteway with dimensions are as follows: no wasteway
(State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: all water flows through 2 concrete outlets, 6 Ft high, and 4 Ft. wide, through the dam
(State whether through or around the proposed dam)

10. The area submerged by the proposed reservoir, when full, will be approx. 1/3 acres, with a maximum depth of water of 9 Ft. feet; and approximate mean depth of water 2 feet.

11. The estimated cost of the proposed work is \$ 2,000.00

12. Construction work will begin on or before all work completed

13. Construction work will be completed on or before

(Sgd) Carl R Staats
(Name of applicant)

STATE OF OREGON, }
County of Marion, } ss.
