

STATE OF OREGON

COUNTY OF POLK

PERMIT to CONSTRUCT a RESERVOIR and to STORE for BENEFICIAL USE the PUBLIC WATERS

JOHN MESSER
5315 ENTERPRISE ROAD
DALLAS, OREGON 97338

503-623-2891

is hereby issued a permit to construct CAMAS RESERVOIR AND STORE WATERS FROM AN UNNAMED STREAM, A TRIBUTARY OF SALT CREEK, TO BE APPROPRIATED UNDER APPLICATION 69894, Permit 50725, for IRRIGATION.

The permit to store these waters is granted under Reservoir Application R-69893 with a date of priority of MAY 11, 1989. The amount of water entitled to be stored each year under such right, for the purposes aforesaid, shall not exceed 16.0 ACRE-FEET.

The dam will be located in the:

NE 1/4 NW 1/4, Section 31, T 6 S, R 5 W, WM;

The maximum height will be 21.0 feet above the stream bed or ground surface at the centerline. The top width will be 11.0 feet, slope of upstream face 3:1, slope of downstream face 2.5:1, and height of dam above water line when full 4.1 feet. The area submerged by the reservoir, when full, will be 2.0 acres and the maximum depth of water will be 16.0 feet.

The construction, operation and maintenance of the reservoir will be subject to the following conditions:

1. The structure shall be constructed, operated and maintained in accordance with the approved plans and specifications and with design intent.
2. The structure shall be constructed under the supervision of a registered engineer licensed in Oregon. No water shall be stored until this department receives written certification from the engineer that construction has been completed in accordance with the approved plans and specifications, and written authorization for storage is received from this department.
3. The outlet gate shall be cycled at least once each year in order to assure smooth operation.
4. The embankment and spillway channel shall be kept clear of trees and brush and other debris.
5. The embankment shall be kept free of burrowing animals.
6. No fill shall be placed until excavation of the cutoff trench has been completed in its entirety and approved by the engineer.

Page 2

7. A new topographical map and area capacity curve, prepared by an engineer, must be submitted to this department if material is removed from the storage area during construction.

The area submerged by the reservoir is located in:

1/4 1/4 SECTION TOWNSHIP RANGE, WM

NE NW 31 6 S 5 W

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or to provide other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

The storage of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

Actual construction work shall begin on or before August 31, 1990, and shall be completed on or before October 1, 1991. The reservoir shall be filled, and complete application of the stored water to the use shall be made on or before October 1, 1992.

The proposed project was reviewed and approved by the Water Resources Commission on August 17, 1989.

This permit is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

Issued this date, August 31, 1989.
