

STATE OF OREGON

COUNTY OF BENTON

PERMIT TO CONSTRUCT A RESERVOIR AND TO  
STORE FOR BENEFICIAL USE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO:

OREGON DEPARTMENT OF FISH AND WILDLIFE  
7118 VANDENBERG AVENUE N.E.  
CORVALLIS, OREGON 97330

503-757-4186

to construct AN UNNAMED RESERVOIR and to store the waters of AN UNNAMED STREAM, a tributary of SOAP CREEK, for WETLAND ENHANCEMENT.

This permit is issued approving Reservoir Application R-72425. The date of priority is JUNE 1, 1992. The amount of water entitled to be stored each year is not more than 20.0 ACRE-FEET. Water may be appropriated for storage during the period November 1 through April 30.

The dam will be located as follows:

SE 1/4 NE 1/4, SECTION 7, T 10 S, R 4 W, W.M.

The total area proposed to be submerged by the reservoir, when full, is 17.0 acres; the proposed maximum depth of water is 6.0 feet. The maximum height of the dam shall not exceed 8.0 feet.

The area to be submerged by the reservoir is located within:

NE 1/4 NE 1/4  
SE 1/4 NE 1/4  
SECTION 7  
TOWNSHIP 10 SOUTH, RANGE 4 WEST, W.M.

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8 inches.

The outlet gate and valve shall be cycled at least once year and shall be fully operational. The embankment and spillway shall be kept clear of brush, debris, and burrowing animals.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The dam shall be constructed, operated, and maintained according to the approved plans and specifications dated October 12, 1992, on file with the Water Resources Department.

No water shall be stored until this department receives written certification from the engineer that construction has been completed in accordance with the approved plans and specifications, and written authorization for storage is received from this department.

The structure shall be constructed under the supervision of a registered engineer licensed in Oregon.

No fill shall be placed until excavation of the cutoff trench has been completed in its entirety and approved by the engineer.

A new topographical map and area-capacity curve, prepared by an engineer, must be submitted to this department if earth material is removed from the storage area during construction.

Actual construction work shall begin on or before April 24 , 1996 and shall be completed on or before October 1, 1997. The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 1998.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

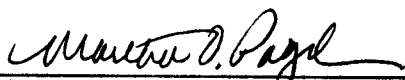

The permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The storage of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director of the Water Resources Department has found that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Issued this date, April.24 , 1995.

Water Resources Department  
Martha O. Pagel  
Director
