This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction or completion as follows:

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before 10

WITNESS my hand this 10 day of 19

STATE ENGINEER

Reports: The stream channel was about 2 ft of a bank in the dry season, and in winter the bank stands of water for the remaining about 4 ft was found necessary that a larger amount should be stored up during the wet season, and the water which also help keep the reservoir full at all times.

Improvement will be made to complete the reservoir to an average depth of 5 ft with a 30 ft bottom width and slopes 1 to 1.

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same subject to the following limitations and conditions:

be constructed with an outlet conduit suitable to pass the normal flow of the stream.

The right hereunder shall be limited to the storage of

The priority date of this permit is

Actual construction work shall begin on or before and shall thereafter be prosecuted with reasonable diligence and be completed on or before

WITNESS my hand this day of
