

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

Name of Applicant: Victor D. Foote

Address: Route 2, Box 350, Sherwood

I, Victor D. Foote, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is unnamed

2. The name of the stream from which the reservoir is to be filled and the appropriation made is unnamed stream a tributary of Toulain River

3. The amount of water to be stored is 0.50 acre feet

4. The use to be made of the impounded water is irrigation

5. The location of the proposed reservoir will be in Sec. 4

Tp. 3-S, R. 2-W, W. M., in the county of Washington

(a) State whether situated in channel of running stream and give character of material at outlet. Reservoir is situated in channel of running stream. Outlet is concrete spillway.

(b) If not in channel of running stream, state how it is to be filled. If through a food canal, give name and dimensions. 10 ft concrete & pump

6. The dam will be located in NW 1/4 of NE 1/4 Sec 4

Tp. 3-S, R. 2-W, W. M. The maximum height will be 4 feet above stream bed or ground

surface on center line of dam. The length on top will be 12 feet, length on bottom 12'-4"-10' concrete

Feet width on top 8 feet. Slope of front wing extending into adjacent ground on each side of dam

of water side 1:1 slope on back 1:1 height of dam above water line

when full 7 feet

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from
watts are as follows: Concrete retaining walls 6 inches
thick. Excels dam fill. Earth fill is
deposited within concrete walls. Wave protection
is concrete dam surface.

8. The location of wasteway with dimensions are as follows: Wasteway is 2100
feet long and 5 feet deep.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions,
are as follows: Outlet is 2100 feet long and 5 feet deep.
It can be opened sufficiently to drain
entire reservoir.

10. The area submerged by the proposed reservoir, when full, will be 0.13 acres,
with a maximum depth of water of 2 feet, and approximate mean depth of water
3.5 feet.

11. The estimated cost of the proposed work is \$ 100.00

12. Construction work will begin on or before Completed 1915

13. Construction work will be completed on or before Completed 1915
