

STATE OF OREGON

COUNTY OF YAMHILL

PERMIT TO CONSTRUCT A RESERVOIR AND STORE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

JYN INC
6135 SW MILL ST
PORTLAND, OREGON 97221

(503) 472-8052

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-84602

SOURCE OF WATER: AN UNNAMED STREAM, A TRIBUTARY OF CHEHALEM CREEK

STORAGE FACILITY: JYN RESERVOIR

PURPOSE OR USE OF THE STORED WATER: STORAGE FOR SUPPLEMENTAL IRRIGATION AND AGRICULTURAL USE TO BE APPROPRIATED UNDER PERMIT S-53783

MAXIMUM VOLUME: 4.8 ACRE FEET EACH YEAR

WATER MAY BE APPROPRIATED FOR STORAGE: NOVEMBER 1 THROUGH JUNE 30

DATE OF PRIORITY: DECEMBER 13, 2000

The area submerged by the reservoir, when full, will be 1.2 ACRES and the maximum depth of water will be 23 FEET. The maximum height of the dam shall not exceed 29 FEET.

DAM LOCATION: LOT 5 (NE $\frac{1}{4}$ SW $\frac{1}{4}$), SECTION 28, T2S, R3W, W.M.; 2681 FEET NORTH & 1352 FEET EAST FROM THE SW $\frac{1}{4}$ CORNER OF SECTION 28

THE AREA TO BE SUBMERGED BY THE RESERVOIR IS LOCATED AS FOLLOWS:

SW $\frac{1}{4}$ NW $\frac{1}{4}$
LOT 6 (SE $\frac{1}{4}$ NW $\frac{1}{4}$)
LOT 5 (NE $\frac{1}{4}$ SW $\frac{1}{4}$)
NW $\frac{1}{4}$ SW $\frac{1}{4}$
SECTION 28
TOWNSHIP 2 SOUTH, RANGE 3 WEST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.

- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The outlet gate(s) shall be cycled at least once each year and shall be fully operational at all times.

Routine maintenance of the dam, its spillway and all appurtenant structures shall be performed as necessary to remove trees, brush and debris, and to repair slumps, areas of erosion, or defective equipment.

The earthen dam, the resultant reservoir, and the emergency spillway, shall be maintained according to the approved plans and specifications on file with the Oregon Water Resources Dam Safety program.

The completed structure shall not be enlarged, modified, altered or otherwise changed without the prior written approval of the Director of the Water Resources Department or the Director's authorized representative. Except for routine repair and maintenance, plans and specifications prepared by an Oregon licensed engineer are required for any significant modification, alteration, or rehabilitation of the dam, spillway or appurtenant structures.

STANDARD CONDITIONS

Use under this permit is limited to the reservoir area. This permit does not provide for the appropriation of water for maintaining the water level or maintaining a suitable fresh water condition.

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8 inches.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

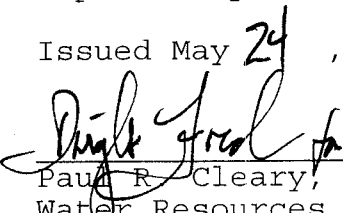

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

The reservoir shall be filled and complete application of the water to the use shall be made on or before October 1, 2006. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit, the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued May 24, 2002

Paul R. Cleary, Director
Water Resources Department

NOTE: Pursuant to ORS 537.330, in any transaction for the conveyance of real estate that includes any portion of the lands described in this permit, the seller of the real estate shall, upon accepting an offer to purchase that real estate, also inform the purchaser in writing whether any permit, transfer approval order, or certificate evidencing the water right is available and that the seller will deliver any permit, transfer approval order or certificate to the purchaser at closing, if the permit, transfer approval order or certificate is available.
