

Application for a Reservoir and to Use the Unappropriated Waters of the State of Oregon

WALTER M. WILSON and Hazel Cleveland
(Name of Applicant)

(Mailing Address)

State of **Oregon**, do hereby make application for a permit to construct the

following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is **Cleveland Fish Ponds #1 and #2**

2. The name of the stream from which the reservoir is to be filled and the appropriation made is **unnamed tributary of Cliver Creek for pond #1; Cliver Creek tributary of Muddy Creek, a tributary of Mary's River for pond #2.**

3. The amount of water to be stored is **0.50 for #1 and 1.05 for #2** acre feet.

4. The use to be made of the impounded water is **fish ponds and irrigation** (irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. **4**
T₁₄ S R **6** W W. M. in the county of **Benton**

(a) State whether situated in channel of running stream and give character of material at outlet
not in channel

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

pond #1: 300 ft. of 1 ft. wide and 1 ft. deep open flume and ditch; pond #2: 300 ft. of single pipe and 1 ft. x 1 ft. open wood flume.

6. The dam will be located in **S81SW1**, Sec. **4**

T₁₄ S R **6** W W. M. The maximum height will be **12** feet above stream bed or ground

surface on center line of dam. The length on top will be **50 ft. #1; 230 ft. #2** feet; length on bottom **same as top** feet; width on top **12** feet; slope of front

of water side **2 to 1**; slope on back **2 to 1**; height of dam above water line

when full **1.5** feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge together with instructions, by addressing the State Engineer, Salem, Oregon.

...method of protection from
...Banks are 1.5 feet
...too small for wave action.

8. THE SOURCE OF WATER WITH DIMENSIONS ARE AS FOLLOWS: (State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Outlets are 15 ft. long wooden culverts, 2 ft. wide and 1 ft. deep, with bottom 2 inches below water surface. Culverts to be in hand excavated ditches. Outlets are shown in sketch.

10. The area submerged by the proposed reservoir, when full, will be 0.25 for #1 and 0.35 for #2 acres, with a maximum depth of water of 3.5 feet, and approximate mean depth of water 3.0 feet.

11. The estimated cost of the proposed work is \$2,000.00.

12. Construction work will begin on or before June 1, 1952.

13. Construction work will be completed on or before October 31, 1952.

John C. ...
(Name of applicant)

STATE OF OREGON,
County of Marion.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction or completion as follows:

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before ... 19...

WITNESS my hand this ... day of ... 19...

STATE ENGINEER

Water will be taken 500 ft. by ...
 ... to Fish pond #1. Fish ...
 ... 5 ft. deep, and contains 35000 cu. ft.
 ... It will deliver water about ...
 ... 12 inch open wooden flume, to ...
 ... Pond #2 is 0.33 acres in area, 3 ft. deep, and contains ...
 ... These two ponds will be used for raising fish. They ...
 ... will overflow into Oliver Creek via small wooden culverts and open ...
 ... intakes #1 and #2 and both pond outlets will be screened with ...
 ... one sixteenth inch opening screens to keep small fish from passing ...
 ... The pump sites are for portable pump and pipe line layouts for ...
 ... the purpose of irrigating about 19 acres of pasture land.
 ... Fish pond #2 has been dug with a bulldozer. The wooden flume has ...
 ... been built; the pipe line and the loose rock dam has not been installed.
 ... Fish pond #1 is partly dug. No other work has been done.
 ... No work has been done or needs to be done on the portable pump sites.
 ... No pumps or pipelines have been purchased.

STATE OF OREGON
 County of Marion

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of two reservoirs and the storage of water from Oliver Creek and unnamed tributary to be appropriated under Application No. 26956, Permit No. 21177 for fishponds, and irrigation.

The right hereunder shall be limited to the storage of 1.33 acre feet.

The priority date of this permit is March 13, 1952

Actual construction work shall begin on or before June 30, 1953

and shall thereafter be prosecuted with reasonable diligence and be completed on or before

October 1, 1954

WITNESS my hand this 30th day of June, 1952
